SUBJECT INDEX

Abdominal surgery, major, under general anaesthetic, investigation of the relationship between heat loss and nitrogen excretion in elderly patients, CARLI, F., *et al.* 1023

——, pain relief after – a comparison of i.m. morphine, sublingual buprenorphine and self-administered i.v. pethidine, ELLIS, R., *et al.* 421

——, upper, comparison of halothane and fentanyl supplementation to general anaesthesia on the stress response of patients undergoing, PARIKH, R. K., *et al.*, (*ARS*) 231P

Acetycholine receptor, DREYER, F. 115

ACTH, and cortisol plasma concentrations in children during adenoidectomy influence of premedication, SIGURDSSON, G., *et al.* 1075

Adenoidectomy, influence of premedication on plasma ACTH and cortisol concentrations in children during, SIGURDSSON, G., *et al.* 1075

Adenylate kinase, and malignant hyperpyrexia, MARJANEN, L. A., *et al.* 949

Adrenaline, extradural pethidine with and without, during labour: wide variation in effect, SKJÖLDEBRAND, A., *et al.* 415

Adrenocortical response, and hyperglycaemic response, to surgery, influence of extradural morphine on, CHRISTENSEN, P., *et al.* 23

Advances in Neurology, Volume 28, Brain Edema: Pathology, Diagnosis and Therapy, CERVOS-NAVARRO, J., *et al.*, (editors), (*R*) 367

Adverse responses, to i.v. anaesthetics, THOMSON, E. E. M., *et al.*, (*C*) 1145

Aetiology of metabolic alterations, the significance of low oxygen tensions in brain tissue in the, under conditions of critical blood flow, GROTE, J., (*ERS*) 262P

Age, and obesity, influence on the dose–response effect of Althesin infusion on the e. e. g., HENDERSON, J. J., *et al.*, (*ARS*) 1138P

——, and weight, influence on the pressure reversal of methohexitone in the rat, HALSEY, M. J., *et al.*, (*ARS*) 786P

Ageing brain, and the young adult brain, blood flow and oxidature metabolism of the, HOYER, S., (*ERS*) 258P

Air, as a vaporizing gas cognitive functions in elderly patients undergoing anaesthesia, PRIOR, F. N., *et al.* 1207

Air embolism in the sitting position, and positive end-expiratory pressure, GILSANZ, F. J. *et al.*, (*C*) 110

——, in the sitting position, MARSHALL, M., (*C*) 791

Albumin, *v* dextran haemodilution in hip surgery, COUDERC, E., *et al.*, (*EAA*) 245P

Alfentanil, KAY, B., (*E*) 1011

——, anaesthesia, cardiovascular effects, SEBEL, P. S., *et al.* (*ARS*) 1129; SEBEL. P.S., *et al.* 1185

——, and Althesin for minor surgery, KAY, B., *et al.*, (*EAA*) 246P

——, and fentanyl, comparative pharmacokinetics, HULL, C. J. *et al.*, (*EAA*) 237P

——, and fentanyl, comparative pharmacokinetics of BOWER, S., *et al.* 871

——, assessment of recovery from day-case anaesthesia supplemented with, SINCLAIR, M., *et al.*, (*ARS*) 1138P

——, a study of its analgesic activity and interactions with morphine in the mouse, WILLIAMS, J. G., *et al.* 81

——, disposition of, a new analgesic agent, in man, CAMU, F., *et al.* (*EAA*) 237P

——, or fentanyl infusions, the additive effect of nitrous oxide on respiratory depression in patients having, ANDREWS, C. J. H., *et al.*, (*ARS*) 1129P

Algebra, and the circle system, HORSEY, P. J., (*C*) 571

Allergic reaction, to an amide local anaesthetic, REYNOLDS, F., (*C*) 901

Allergy, to local anaesthesia, FISHER, M. McD., *et al.* 893

Almitrine, a new analeptic drug, effect on fentanyl-induced respiratory depression and analgesia in man, GAUDY, J. J., *et al.* 617

——, respiratory depression during enflurane anaesthesia corrected by, in the dog but not in humans, LASSNER, J., *et al.*, (*EAA*) 240P

Alphaxalone, and thiopentone, comparison of the cerebral function monitor and plasma concentrations, during total i.v. anaesthesia with repeated bolus doses of thiopentone and Althesin, FRANK, M., *et al.* 609

Althesin, a haemorheological study of, ORR, J. E., *et al.* 1003

——, and alfentanil for minor surgery, KAY, B., *et al.*, (*EAA*) 246P

——, anticonvulsant activity of, on experimental epilepsy, DE RIU, P. L., *et al.* 343

——, by infusion to man, effect of anti-hypertensive therapy on the pharmacokinetics of, SEAR, J. W., *et al.*, (*ARS*) 1130P

——, comparison of the cerebral function monitor and plasma concentrations of thiopentone and alphaxalone during total i.v. anaesthesia with repeated bolus doses of thiopentone and, FRANK, M., *et al.* 609

——, comparison with methohexitone and etomidate. Recovery from day-case anaesthesia, CRAIG, J., *et al.* 447

——, echocardiographic assessment of left ventricular function following induction with, LEHNER, J. P., *et al.*, (*EAA*) 244P

——, immunological aspects of adverse reactions to, RADFORD, S. G., *et al.* 859

——, methohexitone, ketamine and etomidate, efferent vagal discharge and heart rate in response to, in cats, INOUE, K., *et al.* 1105

Althesin hypersensitivity, some factors predisposing to, SIMPSON, P. J., *et al.*, (*ARS*) 1131P

Althesin infusion, dose–response effect on the e.e.g. influence of age and obesity, HENDERSON, J. J., *et al.*, (*ARS*) 1138P

Amethocaine, isobaric, effect of injected volume and speed of injection on the spread of spiral anaesthesia with McCLURE, J. M., *et al.* 917

Amide local anaesthetic, allergic reaction to an, REYOLDS, F., (*C*) 901

Amino acid distribution ratios, in plasma and cerebrospinal fluid, in hypercapnia, MANNI, C., *et al.*, (*EAA*) 251P

4-Aminopyridine, and physostigmine, antagonism of ketamine by, MARTÍNEZ-AGUIRRE, E., (*C*) 110

Anaesthetic drugs, and neuromuscular blocking drugs, interactions with those drugs commonly used for controlled hypotension, HEMPEL, V., *et al*, (*ERS*) 254P

Anaesthesia and Recovery Room Techniques, 3rd edition WACHSTEIN, J. and SMITH, J. A. H., (*R*) 904

Anaesthesia and Uncommon Diseases. Pathophysiologic and Clinical Correlations, KATZ, J. *et al.*, (*R*) 904

Anaesthesia for Cardiac Surgery and Allied Procedures (2nd edn), BRANTHWAITE, M. A., (*R*) 371

Anaesthesiology, VIth European Congress of, SPENCE, A. A., (*E*) 795

Anaesthetic emergency service, at three hospitals—a decade of change, MAJOR, E., *et al.* 267

Anaesthetic Nursing, WALLACE, C. J. (*R*) 309

Anaesthetics, analysis of 130 000, at the Centre Hospitalier Universitaire, Nancy, PICARD, J. M., *et al.*, (*EAA*) 251P 251P

Anaesthetist, and respiratory dysfunction, JONES, J. G. 701
Anaesthetists, exposed to nitrous oxide, serum methionine and hepatic enzyme activity in, NUNN, J. F. *et al.* 593
Analgesia after abdominal surgery, controlled comparison of i.m. morphine and buprenorphine for, COOK, P. J., *et al.* 285
Anaphylactoid reactions, to i.v. anaesthetics, the role of Cremophor EL in GLEN, J. B., *et al.*, (*ARS*) 231P
Anesthesia and the Obese Patient, BROWN, B. R. jr., (editor), (*R*) 903
Anesthesia in Otolaryngology and Ophthalmology, SNOW, J. C., (*R*) 1345
An Introduction to Acupuncture: Treatment and Anesthesia, SALIM, M., (*R*) 794
Antibiotics, pre- and postjunctional blocking effects of aminoglycoside, polymyxin, tetracycline and lincosamide, SINGH, Y. N., *et al.* 1295
Anticonvulsant activity, of Althesin on experimental epilepsy, DE RIU, P. L., *et al.* 343
Antidiuretic hormone, suppression of hypersecretion during surgery by extradural anaesthesia, BONNET, F., *et al.* 29
Anti-epileptic drugs, interaction with ketamine and e.e.g. seizure waves, KAYAMA, Y. 879
Anti-hypertensive therapy, effect on the pharmacokinetics of Althesin by infusion in man, SEAR, J. W., *et al.*, (*ARS*) 1130P
Apnoea, and face immersion, cardiovascular responses to, in exercising man, BJERTNAES, L., *et al*, (*EAA*) 247P
Arterial pressure, comparison of the effects of Org NC 45 and pancuronium bromide on heart rate and, in anaesthetized man, BARNES, P. K., *et al.* 435
Artificial ventilation, with positive end-expiratory pressure, bronchiolectasis as a result of, NUNN, J. F., *et al.*, (*ARS*) 1135P
Atracurium, and tubocuraine, *in vitro* comparison between the neuromuscular and ganglion blocking potency ratios, HEALY, T. E. J., *et al.* 1309
——, dose–response relation for, Org NC45 and pancuronium, GRAMSTAD, L., *et al.* 647
——, its speed of onset. A comparison with suxamethonium, SCOTT, R. P. F., *et al.* 909
——, Org NC 45 and pancuronium, onset time and duration of action for, GRAMSTAD, L., *et al.* 827
——, recovery from neuromuscular blockade after infusion of, MADDEN, A. P., *et al.*, (*ARS*) 226P
——, the neuromuscular blocking action of, in the dog, JONES, R. S., *et al.*, (*ARS*) 788P
——, use during general surgery monitored by the brain-of-four stimuli, HUNTER, J. M., *et al.* 1243
Atropine, a study of glycopyrrolate and, in the suppression of the oculocardiac reflex during strabismus surgery in children, HUNSLEY, J. E., *et al.* 459
——, does it effect the cardiovascular response to laryngoscopy and intubation? FASSOULAKI, A., *et al.* 1065
——, is premedication necessary with ?; effect of premedicants on the cardiovascular system, FASSOULAKI, A., *et al.*, (*EAA*) 243P
——, or glycopyrrolate, i.m. or i.v. for the prevention of oculocardiac reflex in children undergoing squint surgery, MIRAKHUR, R. K. 1059
——, oral, or hyoscine, influence on the absorption of oral diazepam. GREGORETTI, S. M., *et al.* 1231
——, use during general surgery monitored by the train-of-four stimuli, HUNTER, J. M., *et al.* 1245
——, use in patients with no renal function, HUNTER, J. M., *et al.* 1251
Audiotape-slide techniques, trials of, in teaching, PARBROOK, G. D., *et al.*, (*EAA*) 249P
Auditory evoked response, halothane anaesthesia changes the early components of the, in man, JAMES, M. F. M., *et al.*, (*ARS*) 787P
Bain anaesthetic system, clinical comparison with the Magill anaesthetic system during spontaneous respiration, ALEXANDER, J. P. 1031
Barbiturate overdose, pattern of respiration in patients recovering from, GAUTIER, H., *et al.* 1041
β-Blocking drugs, and the lower oesophageal spincter, VATER, M., *et al.*, (*C*) 899
β-endorphin-like immunoreactivity, plasma, influence of medication, pain and progress in labour on, THOMAS, T. A., *et al.* 401
Behavioural effects, and electroencephalographic effects of enflurane and halothane anaesthesia in the cat, BASSELL, G. M., *et al.* 659
Benzodiazepine antagonist, pilot study of a, DOENICKE, A., *et al.*, (*ARS*) 1131P
Benzodiazepines, venous sequelae following i.v. anaesthetics and, KAWAR, P., *et al.*, (*ARS*) 233P
Blood flow, and oxidative metabolism of the young adult and ageing brain, HOYER, S., (*ERS*) 258P
Blood-gas tensions, effects of alterations in, on the responsiveness of the cerebral circulation 1 week after the induction of subarachnoid haemorrhage, FITCH, W., *et al.*, (*EAA*) 248P
Blood glucose, concentrations and preoperative starvation in children undergoing inpatient and outpatient anaesthesia, JENSON, B. M., *et al.* 1071
Blood glucose concentration, interaction with degree of cerebral tissue acidosis and cellular K^+ release under conditions of critical cortical blood flow, HEUSER, D., *et al.*, (*ERS*) 256P
Book Reviews
Advances in Neurology, Volume 28, Brain Edema: Pathology, Diagnosis and Therapy, CERVOS-NAVARRO, J., *et al.*, (editors), (*R*) 367

——, respiratory depression with: onset time and reversal, ROSEN, M., *et al.*, (*EAA*) 240P
——, single-dose comparison of 0.3 and 0.6 mg i.v. given after operation: clinical effects and plasma concentrations, WATSON, P. J. Q., *et al.* 37
——, sublingual, for pain relief after abdominal surgery—a comparison of i.m. morphine and self-administered i.v. pethidine, ELLIS, R., *et al.* 421

Caesarean section, elective status of neonates delivered by, CRAWFORD, J. S., *et al.* 1015
——, placental transfer of Org NC 45 in women undergoing, DEMETRIOU, M., *et al.* 643
——, tocolysis and anaesthesia for, SUPPAN, P., (*C*) 1007
Calcium transport, effect of halothane on, in isolated hepatic endoplasmic reticulum, ZUCKER, J. R., *et al.* 981
Canine coronary blood flow, application of multiple regression analysis to some capabilities and limitations, BLACK, A. M. S., *et al.* 1321
Canine intracranial pressure, changes in response to infusions of sodium nitroprusside and trinitroglycerin, MORRIS, P. J., *et al.* 991
Carbon dioxide, pattern of reduction of ventilatory and occlusion pressure response to, by pentazocine in man, DRUMMOND, G. B., *et al.* 87
Carbon dioxide homeostasis, and circle systems, LADEGAARD-PEDERSEN, H. J., (*C*) 365
Cardiac Anaesthesia, CONAHAN, T. J., (editor), (*R*) 903
Cardiac surgery, i.v. glyceryl trinitrate, haemodynamic effects and clinical use in, BALE, R., *et al.* 297
Cardiac surgical patients, haemodynamic responses to induction of anaesthesia using midazolam in, SCHULTE-SASSE, U., *et al.* 1053
"Cardiff" demand analgesia apparatus, patient administration of i.v. buprenorphine for postoperative pain relief using the, GIBBS, J. M., *et al.* 279
Cardiopulmonary bypass, and complement, BORALESSA, H., *et al.*, (*ARS*) 243P
——, perioperative changes in complement associated with, BORALESSA, H., *et al.* 1047
Cardiorespiratory effects, of an inspiratory hold and continuous positive pressure ventilation in goats, PEREZ-CHADA, R. D., *et al.*, (*ARS*) 783P
Cardiorespiratory responses, to an i.v. infusion of dobutamine in the intact anaesthetized dog, ORCHARD, C. H., *et al.* 673
Cardiovascular effect, of a nitroprusside–trimetaphan mixture during halothane anaesthesia, WILDSMITH, J. A. W., *et al.*, (*ARS*) 1136
——, of alfentanil anaesthesia, SEBEL, P. S. *et al.*, (*ARS*) 1129P; SEBEL, P. S., *et al.* 1185
Cardiovascular reflexes, acute tolerance of, to fentanyl in the dog, ASKITOPOULOU, H., *et al.*, (*ARS*) 226P
Cardiovascular response, to laryngoscopy and intubation, does atropine affect the ?, FASSOULAKI, A., *et al.* 1065
Cardiovascular responses, to combined apnoea and face immersion in exercising man, BJERTNAES, L., *et al.*, (*EAA*) 247P
Cardiovascular system, effect of premedicants on the: is premedication with atropine necessary?, FASSOULAKI, A., *et al.*, (*EAA*) 243P
Cat, effect of nitrous oxide alone or its combination with fentanyl on spinal reflexes in, SUGAI, N., *et al.* 567
——, efferent vagal discharge and heart rate in response to methohexitone, Althesin, ketamine and etomidate in, INOUE, K., *et al.* 1105
——, electroencephalographic and behavioural effects of enflurane and halothane anaesthesia in the, BASSELL, G. M., *et al.* 659
——, reversibility by neostigmine of an Org NC 45 neuromuscular blockade under halothane and enflurane anaesthesia in the, BOOIJ, L., *et al.* (*EAA*) 242P
——, some actions of Org NC 45 and of edrophonium in the anaesthetized, and in man, BAIRD, W. L. M., *et al.* 375
Catecholamine, plasma concentrations, and haemodynamic studies during phareochromocytoma reaction, MARTY, J., *et al.*, (*EAA*) 249P
Catecholamine-secreting tumours, use of metyrosine in the anaesthetic management of patients with. *A case report*, TRINER, L., *et al.* 1333
Catecholamines, plasma, in anaesthesia, FELL, D., *et al.*, (*ARS*) 231P
——, plasma, responses to endotracheal intubation, GELL, D.,

et al., (*ARS*) 1135P
Catheter, *a trial of two types of*. External jugular vein access to the central nervous system, RIDDELL, G. S., *et al.* 535
Central respiratory effects, acute desensitization of the, of midazolam in the dog, AL-KHUDHAIRI, D., *et al.*, (*ARS*) 278P
——, acute, of diazepam, its solvent and propylene glycol, AL-KHUDHAIRI, D., *et al.* 959
——, of midazolam in the dog, acute "tolerance" to the, AL-KHUDHAIRI, D., *et al.* 953
Central venous catheter, malposition of a, WEEDEN, D., *et al.*, (*C*) 109
Central venous system, external jugular vein access to. *A trial of two types of catheter*, RIDDELL, G. S., *et al.* 535
Cerebral blood flow, and oxygen consumption during controlled hypotension in neurosurgical patients, LARSEN, R., *et al.*, (*ERS*) 262P
——, autoregulation of: effects of hypotensive drugs, FITCH, W., (*ERS*) 254P
Cerebral circulation, effects of alterations in blood-gas tensions on the responsiveness of the, 1 week after the induction of subarachnoid haemorrhage, FITCH, W., *et al.*, (*EAA*) 248P
Cerebral function (CFM), critical comparison of monitoring e.e.g., compressed spectral array (CSA) and evoked response under conditions of decreased cerebral perfusion, PRIOR, P. F., (*ERS*) 259P
Cerebral function monitor, and plasma concentrations of thiopentone and alphaxalone during total i.v. anaesthesia with repeated bolus doses of thiopentone and Althesin, FRANK, M., *et al.* 609
Cerebral membrane stabilization, methods of, under conditions of critical blood flow, ASTRUP, J., (*ERS*) 257P
Cerebral perfusion, decreased, critical comparison of monitoring e.e.g., cerebral function (CFM), compressed spectral array (CSA) and evoked response under conditions of, PRIOR, P. F., (*ERS*) 259P
Cerebral tissue acidosis, degree of, interaction with blood glucose concentration and cellular K^+ release under conditions of critical cortical blood flow, HEUSER, D., *et al.*, (*ERS*) 256P
Chemical Diagnosis of Disease, BROWN, S. S., *et al.*, (editors), (*R*) 370
Chest Physiotherapy in the Intensive Care Unit, MACKENZIE, N., *et al.*, (editors), (*R*) 1009
Chick neuromuscular junction, actions of methohexitone and tubocurarine at the, WALI, F. A., (*ARS*) 1134P
Children, influence of premedication on plasma ACTH and corticol concentrations in, during adenoidectomy, SIGURDSSON, G., *et al.* 1075
——, pharmacokinetics of fentanyl in, SAINT-MAURICE, G.K *et al.*, (*EAA*) 252P
——, postoperative analgesia after circumcision in, MARTIN, L. V. H. 1263
——, undergoing inpatient and outpatient anaesthesia, preoperative starvation and blood glucose concentrations in, JENSON, B. H., *et al.* 1071
Chloroform, hydrogen bonding in mechanisms of anaesthesia tested with, and deuterated chloroform, WOOD, S., *et al.* 387
2-Chloroprocaine, and bupivacaine, effect of extradural analgesia using, on intervillous blood flow during normal labour, HOLLMÉN, A. I., *et al.* 837
Cholinesterase, heterozygotes for atypical, OWEN, H., *et al.*, (*EAA*) 241P
Circle system, and algebra, HORSEY, P. J., (*C*) 571
——, and carbon dioxide homeostasis, LADEGAARD-PEDERSEN, H. J., (*C*) 365
Circumcision, postoperative analgesia after, in children, MARTIN, L. V. H. 1263
Cirrhosis, binding of tubocurarine, fazadinium, pancuronium and Org NC 45 to serum protein in normal man and in patients with, DUVALDESTIN, P., *et al.* 513
——, fentanyl pharmacokinetics in anaesthetized patients with, HABERER, J. P., *et al.* 1267
Clinical effects, and plasma concentrations, single-dose comparison of buprenorphine 0.3 and 0.6 mg i.v. given after operation, WATSON, P. J. Q., *et al.* 37
Clodanolene sodium, and malignant hyperpyrexia, SULLIVAN, J. S., *et al.*, (*C*) 1237
Closed circuit anaesthesia, servo-control of, HAWES, D. W., *et al.* (*ARS*) 229P
Closed circuit, a versatile, BEATTY, P., *et al.* 689
Code Pink—A Practical System for Neonatal Perinatal Resucitation, DAZE, A.M., *et al.*, (editors), (*R*) 1346
Coeliac plexus blocks, and lumbar sympathetic blocks, CHERRY, D. A., *et al.* 1037
Cognitive functions, in elderly patients undergoing anaesthesia. Air as a vaporizing gas, PRIOR, F. N., *et al.* 1207
Colloid osmotic pressure, changes in, and plasma albumin concentration associated with extracorporeal circulation, SANCHEZ DE LEÓN, R., *et al.* 465
Competitive muscle relaxants, pharmacodynamics of, MILLER, R. D. 161
Complement, and cardiopulmonary bypass, BORALESSA, H., *et al.*, (*ARS*) 234P
——, associated with cardiopulmonary bypass, perioperative changes, BORALESSA, H., *et al.* 1047
Compressed spectral array (CSA), critical comparison of monitoring e.e.g., cerebral function (CFM) and evoked response under conditions of decreased cerebral perfusion, PRIOR, P. F., (*ERS*) 259P
Compressors, and humidity, PRYCE, D. S., (*C*) 791
Coronary artery surgery, haemodynamic effects of midazolam and thiopentone during induction of anaesthesia for, AL-KHUDHAIRI, D., *et al.* 831
——, i.v. labetalol in the treatment of hypertension following, MOREL, D. R., *et al.* 1191
Coronary blood flow, canine, application of multiple regression analysis to, same capabilities and limitations, BLACK, A. M. S., *et al.* 1319
Coronary stenosis, critical, enflurane, and left ventricular diastolic relaxation, CUTFIELD, G. R., *et al.*, (*ARS*) 1140P
Cortical blood flow, critical interaction between blood glucose concentration, degree of cerebral tissue acidosis and cellular K^+ release under conditions of, HEUSER, D., *et al.*, (*ERS*) 256P
Cortisol, and ACTH plasma concentrations in children during adenoidectomy, influence of premedication, SIGURDSSON, G., *et al.* 1075
CPK release, and serum myoglobin following suxamethonium, studied using a new radioimmunoassay technique, LAURENCE, A. S., *et al.*, (*ARS*) 1134P
Cremophor El, role in anaphylactoid reactions to i.v. anaesthetics, GLEN, J. B., *et al.*, (*ARS*) 231P
Critical blood flow, methods of cerebral membrane stabilization under, ASTRUP, J., (*ERS*) 257P
——, the significance of low oxygen tensions in brain tissue in the aetiology of metabolic alterations under conditions of, GROTE, J., (*ERS*) 262P
Critically decreased blood flow, or oxygen tension, structural changes in the brain during, KALIMO, H., (*ERS*) 261P
Critically decreased oxygen tension, or blood flow, structural changes in the brain during, KALIMO, H., (*GRS*) 261P
C.s.f. characteristics, and posture, effect on spinal anaesthesia with isobaric 0.5% bupivacaine, KALSO, E., *et al.* 1179
Current Topics in Anaesthesia, 6: Anaesthesia in Patients with Ischaemic Heart Disease, CHUNG, D. C. (*R*) 1346
Cyanide release, and sodium nitroprusside, VESEY, C. J., *et al.*, (*C*) 791
——, from nitroprusside, SMITH, R. P., *et al.*, (*C*) 1145

Day-case anaesthesia, recovery from. Comparison between methohexitone, Althesin and etomidate, CRAIG, J. *et al.* 447
——, recovery from: comparison of a further four techniques including use of the new induction agent Diprivan, JONES, D. F. 629
——, supplemented with alfentanil, assessment of recovery, SINCLAIR, M., *et al.*, (*ARS*) 1138P
Deuterated chloroform, hydrogen bonding in mechanisms of anaesthesia tested with chloroform and, WOOD, S., *et al.* 387
Dextran, *v.* albumin haemodilution in hip surgery, COUDERC, E., *et al.*, (*EAA*) 245P
Diamorphins, ventilatory effects of extradural, COOPER, G. M., *et al.*, (*EAA*) 239P
Diazepam, acute central respiratory effects of its solvent and propylene glycol, AL-KHUDHAIRI, D., *et al.* 959
——, i.m., comparison with hydroxyzine as premedicants, HERR, G. P., *et al.* 3
——, kinetics of high-dose i.v., OCHS, H. R., *et al.* 849
——, oral, influence of oral atropine or hyoscine on the absorption of, GREGORETTI, S. M., *et al.* 1231
——, reduces lower oesophageal sphincter pressure, SMITH, G., *et al.*, (*EAA*) 241P
Diisopropyl phenol, (ICI 35 868), comparison with thiopentone of the effect on response to somatic pain, BRIGGS, L. P., *et al.*, 307
Diprivan, induction, effects of premedication on, FRAGEN, R. J., *et al.* 913
——, recovery from day-case anaesthesia, comparison of a further four techniques including use of the new induction agent, JONES, D. F. 629
Dobutamine, and dopamine, effects on the distribution of pulmonary blood flow during lobar ventilation hypoxia and lobar collapse, McFARLANE, P. A., *et al.*, (*ARS*) 784P
——, cardiorespiratory responses to an i.v. infusion of, in the intact anaesthetized dog, ORCHARD, C. H. *et al.* 673
Dog, acute densitization of the central respiratory effects of midazolam in the, AL-KHUDHAIRI, D., *et al.*, (*ARS*) 228P
——, acute tolerance to cardiovascular reflexes to fentanyl in the, ASKITOPOULOU, H., *et al.*, (*ARS*) 226P
——, acute "tolerance" to the central respiratory effects of midazolam in the AL-KHUDHAIRI, D., *et al.* 953
——, cardiorespiratory responses to an i.v. infusion of dobutamine in the intact anaesthetized, ORCHARD, C. H., *et al.* 673
——, respiratory depression during enflurane anaesthesia corrected by almitrine in the, but not in humans, LASSNER, J., *et al.*, (*EAA*) 240P
——, the neuromuscular blocking action of atracurium in the, JONES, R. S., *et al.*, (*ARS*) 788P
Dopamine, and dobutamine, effects on the distribution of pulmonary blood flow during lobar ventilation hypoxia and lobar collapse, McFARLANE, P. A., *et al.*, (*ARS*) 784P
Drugs, assessment of the effects on respiration, JORDAN, C. 763
Duodenum, rat, effects of inhalation anaesthetic agents on the electrical and mechanical activity of the, WRIGHT, J. W., *et al.* 1223
Dural permeability, to narcotics: *in vitro* determination and application to extradural administration, MOORE, R. A., *et al.* 1117
Duration of action, and onset time for atracurium, Org NC 45 and pancuronium, GRAMSTAD, L., *et al.* 827

E.c.f. potassium concentration, comparison of changes in, and pH of the brain between trimetaphan- and nitroprusside-induced hypotension, MORRIS, P. J., *et al.*, (*ERS*) 257P
Echocardiographic assessment, of left ventricular function following induction with Althesin, LEHNER, J. P., *et al.* (*EAA*) 244P
Editorial arrangements, changes in, FITCH, W., (*E*) 373
Edrophonium, some actions of, and of Org NC 45 in the anaesthetized cat and in man, BAIRD, W. L. M., *et al.* 375
Educated cheek, ROSEN, M., *et al.*, (*C*) 476
E.e.g., and e.m.g. monitoring during anaesthesia, HOLLMÉN, A. I., *et al.*, (*EAA*) 241P
——, and plasma concentration after various regimens of etomidate, DOENICKE, A., *et al.* 393
——, dose–response effect of Althesin infusion on the: influence of age and obesity, HENDERSON, J. J., *et al.*, (*ARS*) 1138P
E.e.g. analysis, and clinical effects of levonantradol in human volunteers, LASSNER, J., *et al.*, (*EAA*) 252P
E.e.g. seizure waves, and ketamine: interaction with anti-epileptic drugs, KAYAMA, Y. 879
Elderly patients, undergoing anaesthesia, cognitive functions in. Air as a vaporizing gas, PRIOR F. N., *et al.* 1207
——, undergoing major abdominal surgery under general anaesthetic, investigation of the relationship between heat loss and nitrogen excretion, CARLI, F., *et al.* 1023
Elderly, spinal block with lignocaine and fentanyl for Ender nailing in the, OTTENI, J. C., *et al.*, (*EAA*) 238P
Electrical monitoring, of the brain in induced hypotension, McDOWALL, D. G., (*ERS*) 259P
Electrical Safety in Hospitals, WARD, C. S., (*R*) 367
Electroencephalographic effects, and behavioural effects of enflurane and halothane anaesthesia in the cat, BASSELL, G. M., *et al.* 659
——, of sufentanil anaesthesia in man, BOUILL, J. G., *et al.* 45
Electrophysiological activity, of the ureter in rabbit, effect of intrathecal morphine on the, MAGORA, F., *et al.*, (*EAA*) 238P
E.m.g., and e.e.g. monitoring during anaesthesia, HOLLMÉN, A. I., *et al.*, (*EAA*) 241P
Emphysema, effects of varying inspiratory flow waveform and time in intermittent positive pressure ventilation, BAKER, A. B., *et al.* 547
End-diastolic cardiac size, relationship with ventricular function under increasing doses of enflurane in intact, chronically instrumented dogs, STEINBEREITHNER, K., *et al.*, (*EAA*) 244P
Ender nailing, spinal block with lignocaine and fentanyl for, in the elderly, OTTENI, J. C., *et al.*, (*EAA*) 238P
Endocrine function, effects of extradural analgesia with etidocaine and opoids on, ARROYO, J. L., *et al.*, (*EAA*) 240P
Endocrine response, and metabolic response to upper abdominal surgery, effect of extradural analgesia and vagal blockade on, TRAYNOR, C. *et al.* 319
Endoscopy, midazolam as a sedative in, DUNDEE, J. W., *et al.*, (*ARS*) 1136P
Endotracheal intubation, plasma catecholamine responses to, FELL, D., *et al.*, (*ARS*) 1135P
Endotracheal tubes, a Foley catheter introducer for, BOLISTON, T. A., (*C*) 111
End-systolic pressure–length, the use of for assessment of regional myocardial contractility, FRANCIS, C. M., *et al.*, (*ARS*) 1141P
Enflurane, a comparison with halothane and isoflurane: morbidity in minor gynaecological surgery, TRACEY, J. A., *et al.* 1213
——, anaesthesia in man, impaired neostigmine antagonism of pancuronium during, DELISLE, S., *et al.* 441
——, and halothane anaesthesia in the cat, electroencephalographic and behavioural effects of, BASSELL, G. M., *et al.* 659
——, and halothane anaesthesia, reversibility by neostigmine of an Org NC 45 neuromuscular blockade under, in the cat, BOOIJ, L., *et al.*, (*EAA*) 242P

Enflurane, and halothane, peripheral vascular effects of, BEERS, H. T. B., *et al.*, (*ARS*) 788P
——, critical coronary stenosis, and left ventricular diastolic relaxation, CUTFIELD, G. R., *et al.*, (*ARS*) 1140P
——, effects of the inhalation of, on hepatic microsomal enzymatic activities in the rat, ROCHA-REIS, da, M. G. F., *et al.* 97
——, is chronic exposure teratogenic or toxic at 200 p.p.m? a study in rats, MONK, S. J. *et al.*, (*ARS*) 1139P
——, on the relationship between end-diastolic cardiac size and ventricular function under increasing doses of, in intact, chronically intrumented dogs, STEINBEREITHNER, K., *et al.*, (*EAA*) 244P
——, 200 p.p.m., chronic exposure of rats to: no evidence of toxicity or teratogenicity, GREEN, C. J., *et al.* 1097
Enflurane anaesthesia, haemodynamics of verapamil during, HOLLAND, D. E., *et al.*, (*ARS*) 787P
——, respiratory depression during, corrected by almitrine in the dog but not in humans, LASSNER, J., *et al.*, (*EAA*) 240P
Epidemiology, in anaesthesia I: Anaesthetic practice over 20 years, LUNN, J. N., *et al.* 803
——, in anaesthesia II: Factors affecting mortality in hospital, FARROW, S. C., *et al.* 811
——, in anaesthesia III: Mortality risk in patients with coexisting physical disease, FOWKES, F. G. R., *et al.* 819
Epilepsy, experimental, anticonvulsant activity of Althesin on, DE RIU, P. L., *et al.* 343
Etidocaine, and opioids for extradural analgesia, effects on endocrine function, ARROYO, J. L., *et al.*, (*EAA*) 240P
Etodolac, in postoperative pain: a double-blind study with aspirin and placebo, ROLLY, G., *et al.*, (*EAA*) 250P
Etomidate, and fentanyl concentrations in a total i.v. anaesthetic technique to 6 h after operation, JONES, D., *et al.*, (*ARS*) 1130P
——, comparison with methohexitone and Althesin. Recovery from day-case anaesthesia, CRAIG, J., *et al.* 447
——, methohexitone, Althesin and ketamine, efferent vagal discharge and heart rate in response to, in cats, INOUE, K., *et al.* 1105
——, plasma concentration and e.e.g. after various regimens of, DOENICKE, A., *et al.* 393
Ethrane, in the presence of pancuronium, identification of interacting dynamic effects on muscle paralysis using ASBURY, A. J., *et al.*, (*ARS*) 790P
Exercise, progressively severe, in malignant hyperpyrexia susceptible subjects, hormone and metabolite concentrations, CAMPBELL, I. T., *et al.*, (*ARS*) 1133P
Exercising man, cardiovascular responses to combined apnoea and face immersion in, BJERTNAES, L., *et al.*, (*EAA*) 247P
External jugular vein access, to the central venous system. *A trial of two types of catheter*, RIDDELL, G. S., *et al.* 535
Extracorporeal circulation, changes in colloid osmotic pressure and plasma albumin concentration associated with, SANCHEZ DE LEÓN, R., *et al.* 465
Extradural administration, dural permeability to narcotics, *in vitro* determination and application to, MOORE, R. A., *et al.* 1117
Extradural analgesia, comparison of four narcotic analgesics for, TORDA, T. A., *et al.* 291
——, effects of, and vagal blockade on the metabolic and endocrine response to upper abdominal surgery, TRAYNOR, C., *et al.* 319
——, effects with etidocaine and opioids on endocrine function, ARROYO, J. L., *et al.*, (*EAA*) 240P
——, postoperative glucose tolerance during, BUCKLEY, F. P., *et al.* 325
——, using bupivacaine and 2-chloroprocaine, effect on intervillous blood flow during normal labour, HOLLMÉN, A. I., *et al.* 837
Extradural anaesthesia, suppression of antidiuretic hormone hypersecretion during surgery by, BONNET, F., *et al.* 29
——, *v.* phenoperidine analgesia: blood loss in total hip replacement, CHIN, S. P., *et al.* 491
Extradural buprenorphine, ZENZ, M., *et al.*, (*C*) 1146
Extradural diamorphine, ventilatory effects of, COOPER, G. M., *et al.*, (*EAA*) 239P
Extradural fentanyl, in labour, a controlled trial of, JUSTINS, D. M., *et al.* 409
Extradural morphine, accidental high-dose, MØLLER, T. W., *et al.*, (*C*) 1237
——, and i.m. morphine analgesia, urinary retention during, PETERSEN, T. K., *et al.* 1175
——, and parenteral morphine: kinetics and effects in postoperative pain. A controlled clinical study, GUSTAFSSON, L. L., *et al.* 1167
——, and Stokes–Adams attacks, CHRISTENSEN, P., *et al.*, (*C*) 363
——, dose-effect relationships of, PYBUS, D. A., *et al.* 1259
——, influence on the adrenocortical and hyperglycaemic response to surgery, CHRISTENSEN, P., *et al.* 23
——, in obstetric anaesthesia, DICK, W. F., *et al.*, (*EAA*) 239P
——, the respiratory depression of, McCAUGHEY, W., *et al.*, (*ARS*) 225P
Extradural opiates, and intrathecal opiates, adverse effects of: report of a nationwide survey in Sweden, GUSTAFSSON, L. L., *et al.* 479
Extradural pethidine, with and without adrenaline during labour: wide variation in effect, SKJÖLDEBRAND, A., *et al.* 415
Extradural route, obstetric analgesia with fentanyl–bupivacaine by the, NALDA, M. A., *et al.*, (*EAA*) 250P
Extradural space, and morphine, BITSCH-LARSEN, L., *et al.*, (*C*) 573

Face immersion, and apnoea, cardiovascular responses to, in exercising man, BJERTNAES, L., *et al.*, (*EAA*) 247P
Fazadinium, tubocurarine, pancuronium and Org NC 45, binding to serum proteins in normal man and in patients with cirrhosis, DUVALDESTIN, P., *et al.* 513
Fentanyl, acute tolerance of cardiovascular reflexes to, in the dog, ASKITOPOULOU, H., *et al.*, (*ARS*) 226P
——, and alfentanil, comparative pharmacokinetics, HULL, C. J., *et al.*, (*EAA*) 237P
——, and alfentanil, comparative pharmacokinetics of, BOWER, S., *et al.* 871
——, and etomidate plasma concentrations in a total i.v. anaesthetic technique to 6 h after operation, JONES, D., *et al.*, (*ARS*) 1130P
——, and lignocaine for spinal block, for Ender nailing in the elderly, OTTENI, J. C., *et al.*, (*EAA*) 238P
——, comparison with halothane for supplementation to general anaesthesia on the stress response of patients undergoing upper abdominal surgery, PARIKH, R. K., *et al.*, (*ARS*) 231P
——, control of breathing after, and Innovar anaesthesia, SMEDSTAD, K. G., *et al.* 599
——, extradural, in labour, a controlled trial of, JUSTINS, D. M., *et al.*, 409
——, in combination with nitrous oxide, or nitrous oxide alone, effect on spinal reflexes in cats, SUGAI, N., *et al.* 567
——, midazolam and enflurane, pharmacokinetic data obtained by a new method for arbitrary application schemes, SCHWILDEN, H., *et al.*, (*EAA*) 237P
——, or alfentanil infusions, the additive effect of nitrous oxide on respiratory depression in patients having, ANDREWS, C. J. H., *et al.*, (*ARS*) 1129P
——, pharmacokinetics of, in children, SAINT-MAURICE, C., *et al.*, (*EAA*) 252P
——, plasma concentrations and the occurrence of ventilatory depression in volunteers, STOECKEL, H., *et al.* 1087

Fentanyl–bupivacaine, by the extradural route for obstetric analgesia, NALDA, M. A., *et al.*, (*EAA*) 250P
Fentanyl-induced respiratory depression, and analgesia in man, effect of a new analeptic drug, almitrine, on, GAUDY, J. H., *et al.* 617
Fentanyl pharmacokinetics, in anaesthetized patients with cirrhosis, HABERER, J. P., *et al.* 1267
Fetal morphine, and maternal concentration, after intrathecal administration during labour, BONNARDOT, J. P., *et al.* 487
Fetal tcP_{O_2} values, change in, occurring during labour in association with lumbar extradural analgesia, WILLCOURT, R. J., *et al.* 635
F.F.A.R.C.S. Examination, SPENCE, A. A., (*E*) 265
Fibreoptic bronchscopy, plasma concentrations of lignocaine and its metabolites during, JONES, D. A., *et al.* 853
Fibrinolysis, MARSH, N., (*R*) 575
Fluroxene, sister chromatid exchanges in human lymphocytes after anaesthesia with, HUSUM, B., *et al.* 987
Foley catheter introducer, for endotracheal tubes, BOLISTON, T. A., (*C*) 111

Ganglion blocking potency, and neuromuscular blocking potency ratios, *in vitro* comparison of atracurium and tubocurarine, HEALY, T. E. D., *et al.* 1307
General anaesthesia, and wakefulness, RUSSELL, I. F., (*C*) 573
——, comparison of halothane and fentanyl supplementation to, on the stress response of patients undergoing upper abdominal surgery, PARIKH, R. K., *et al.*, (*ARS*) 231P
General anaesthetic, investigation of the relationship between heat loss and nitrogen excretion in elderly patients undergoing major abdominal surgery under, CARLI, F., *et al.* 1023
General surgery, use of atracurium during, monitored by the train-of-four stimuli, HUNTER, J. M., *et al.* 1243
Glucose tolerance, postoperative, during extradural analgesia, BUCKLEY, F. P., *et al.* 325
Glyceryl trinitrate, i.v.: haemodynamic effects and clinical use in cardiac surgery, BALE, R., *et al.* 297
Glycolysis of muscle, increased in unstressed patients susceptible to malignant hyperpyrexia, ELLIS, F. R., *et al.*, (*ARS*) 1132P
Glycopyrrolate, a study of, and atropine, in the suppression of the oculocardiac reflex during strabismus surgery in children, HUNSLEY, J. E., *et al.*, 459
——, or atropine, i.m. or i.v. for the prevention of oculocardiac reflex in children undergoing squint surgery, MIRAKHUR, R. K., *et al.* 105°
Goats, cardiorespiratory effects of an inspiratory hold and continuous positive pressure ventilation in, PEREZ-CHADA, R. D., *et al.*, (*ARS*) 783P
Gynaecological surgery, effect of phentolamine on the metabolic response to, WALSH, E. S., *et al.* 517
——, minor morbidity in: a comparison of halothane, enflurane and isoflurane, TRACEY, J. A., *et al.* 1213

Haemoconcentration, and resistance to pancuronium, BARAKA, A., *et al.* (*C*) 573
Haemodynamic, and lactate changes in early shock, COWAN, B. N., *et al.*, (*ARS*) 786P
Haemodynamic effects, of i.v. glyceryl trinitrate, and clinical use in cardiac surgery, BALE, R., *et al.* 297
——, of midazolam and thiopentone during induction of anaesthesia for coronary artery surgery, AL-KHUDHAIRI, D., *et al.* 831
Haemodynamic responses, to induction of anaesthesia using midazolam in cardiac surgical patients, SCHULTE-SASSE, U., *et al.* 1053
Haemodynamics, of verapamil during enflurane anaesthesia, HOLLAND, D. E., *et al.*, (*ARS*) 787P
Haemodynamic studies, during phaeochromocytoma resection, and plasma catecholamine concentrations, MARTY, J., *et al.*, (*GAA*) 249P
Haemorheological study, of Althesin, ORR, J. E., *et al.* 1003
Halothane, a comparison with enflurane and isoflurane: morbidity in minor gynaecological surgery, TRACEY, J. A., *et al.* 1213
——, and enflurane anaesthesia in the cat, electroencephalographic and behavioural effects of, BASSELL, G. M., *et al.* 659
——, and enflurane anaesthesia, reversibility by neostigmine of an Org NC 45 neuromuscular blockade under, in the cat, BOON, L., *et al.*, (*EAA*) 242P
——, and enflurane, peripheral vascular effects of, BEERS, H. T. B., *et al.*, (*ARS*) 788P
——, comparison with fentanyl for supplementation to general anaesthesia on the stress response of patients undergoing upper abdominal surgery, PARIKH, R. K., *et al.*, (*ARS*) 231P
——, effect on calcium transport in isolated hepatic endoplasmic reticulum, ZUCKER, J. R., *et al.* 981
——, effects of, and sodium nitroprusside on renal function and auto-regulation, OHMURA, A., *et al.* 103
Halothane adsorption, complicating the use of soda-lime to humidify anaesthetic gases, GRODIN, W. K., *et al.* 555
——, mechanisms of, by dry soda-lime, GRODIN, W. K., *et al.* 561
Halothane anaesthesia, cardiovascular effect of a nitroprusside–trimetaphan mixture during, WILDSMITH, J. A. W., *et al.*, (*ARS*) 1136P
——, changes the early components of the auditory evoked response in man, JAMES, M. F. M., *et al.*, (*ARS*) 787P
——, interaction between regional myocardial ischaemia and left ventricular performance under, FRANCIS, C. M. *et al.* 965
Halothane hepatitis, in a young child, LEWIS, R. B., *et al.* 349
Handbook of Intensive Care, ATKINSON, R. S., *et al.*, (*R*) 576
Handbook of Percutaneous Central Venous Catheterisation, ROSEN, M., *et al.*, (*R*) 575
Heat loss, and nitrogen excretion, relationship between, in elderly patients undergoing major abdominal surgery under general anaesthetic, CARLI, F., *et al.* 1023
——, reduction of, in neurosurgical patients using metallized plastic sheeting, TELFER BRUNTON, J. L. A., *et al.* 1201
Heart rate, and efferent vagal discharge in response to methohexitone, Althesin, ketamine and etomidate in cats, INOUE, K., *et al.* 1105
——, comparison of the effects of Org NC 45 and pancuronium bromide on, and arterial pressure in anaesthetized man, BARNES, P. K., *et al.* 435
Helium, concentration, effect on peak flow of gases, VATER, M., *et al.*, (*ARS*) 228P
Hepatic endoplasmic reticulum, isolated, effect of halothane on calcium transport in, ZUCKER, J. R., *et al.* 981
Hepatic enzyme activity, and serum methionine in anaesthetists exposed to nitrous oxide, NUNN, J. F., *et al.* 593
Hepatic microsomal enzymatic activities, effects of the inhalation of enflurane on, in the rat, ROCHA-REIS, da, M. G. F., *et al.* 97
Hepatitis, halothane, in a young child, LEWIS, R. B., *et al.* 349
Heterozygotes, for a typical cholinesterase, OWEN, H., *et al.*, (*EAA*) 241P
Hip and shoulder replacement, total, controlled hypotension to minimize blood loss of anaemic Jehovah's Witness patient undergoing, CUNNINGHAM, A. J. A., 895
Hip replacement, total, blood loss in: extradural *v.* phenoperidine analgesia, CHIN, S. P., *et al.* 491
Hip surgery, dextran *v.* albumin haemodilution in, COUDERC, E., *et al.*, (*EAA*) 245P

Histamine, the problem of, in anaesthesia, THORNTON, J. A., (*E*) 1
History of Anaesthesia, Rotterdam Meeting on the, HUNTER, A. R., (*E*) 797
How to Understand Acid-Base. A Quantitative Acid-Base Primer for Biology and Medicine, STEWART, P. A., (*R*) 368
Humidification of Anaesthetic Gases, CHALON, J., *et al.*, (*R*) 369
Humidity, and compressors, PRYCE, D. S., (*C*) 791
Huntington's Chorea, LAMONT, A. S. M., (*C*) 1146
Hydatid cysts, of the lung, one-lung ventilation of children during surgical excision of, BARAKA, A., *et al.* 523
Hydrogen bonding, in mechanisms of anaesthesia tested with chloroform and deuterated chloroform, WOOD, S., *et al.* 387
Hydroxyzine, i.m., comparison with diazepam as premedicants, HERR, G. P., *et al.* 3
Hyoscine, or oral atropine, influence on the absorption of oral diazepam, GREGORETTI, S. M., *et al.* 1231
Hyperbaric bupivacaine, effect of added vasoconstrictors on spinal anaesthesia with, CHAMBERS, W. A., *et al.*, (*ARS*) 230P
——, for spinal analgesia: effects of concentration and volume administered, CHAMBERS, W. A., *et al.* 75
——, for spinal analgesia: effects of volume of solution, SUNDNES, K. O., *et al.* 69
Hypercapnia, plasma and cerebrospinal fluid amino acid distribution ratios in, MANNI, C., *et al.*, (*EAA*) 251P
Hypercarbia, and hypocarbia, effect on the antagonism of pancuronium-induced neuromuscular blockade with neostigmine in man, WIRTAVUORI, K., *et al.* 57
Hyperglycaemia, tissue lactic acidosis and ischaemic brain injury, REHNCRONA, S., (*ERS*) 255P
Hyperglycaemic response, and adrenocortical response, to surgery, influence of extradural morphine on the, CHRISTENSEN, P., *et al.* 23
Hyperpyrexia, malignant, and adenylate kinase, MARJANEN, L. A., *et al.* 949
——, malignant, and clodanolene sodium, SULLIVAN, J. S., *et al.*, (*C*) 1237
——, malignant, increased glycolysis of muscle in unstressed patients susceptible to, ELLIS, F. R., *et al.*, (*ARS*) 1132P
——, malignant, platelet function in, SULLIVAN, J. S., *et al.*, (*C*) 900
——, malignant, susceptible subjects, hormone and metabolite concentrations during progressively severe exercise, CAMPBELL, I. T., *et al.*, (*ARS*) 1133P
Hypertension, arterial, as contributory factors to the risks from anaesthesia and surgery in patients with myocardial infarction, TRIANTAPHYLLIDIS, A. A., *et al.*, (*EAA*) 246P
——, i.v. labetalol in the treatment of, following coronary-artery surgery, MOREL, D. R., *et al.* 1191
——, postoperative, pentolinium in, WALTERS, F., (*C*) 1143
——, rebound arterial, following discontinuation of sodium nitroprusside, FAHMY, N. R., (*ERS*) 253P
——, tourniquet-induced, KAUFMAN, R. D., *et al.* 333
Hyperthermia, experimental porcine malignant. The activity of certain transporting enzymes and myofibrillar calcium-binding protein content in the muscle fibre, NIEBRÓJ-DOBOSZ, I., *et al.* 865
——, porcine malignant. VIII: leg metabolism, HALL, G. M., *et al.* 941
Hyperthermia- susceptible pigs, malignant, metabolism of monoamines in, BARDSLEY, M. E., *et al.* 1313
Hypertonicity, and cardiac arrest associated with suxamethonium in unsuspected pseudohypertrophic muscular dystrophy, LINTER, S. P. K., *et al.* 1331
Hypocarbia, and hypercarbia, effect on the antagonism of pancuronium-induced neuromuscular blockade with neostigmine in man, WIRTAVUORI, K., *et al.* 57
Hypophysectomy, for pain relief, pituitary functions following, EVANS, P. J. D., *et al.* 921
Hypotension, controlled, cerebral blood flow and oxygen consumption during, in neurosurgical patients, LARSEN, R., *et al.* (*ERS*) 262P
——, controlled, interactions of anaesthetic drugs and neuromuscular blocking drugs with those drugs commonly used for, HEMPEL, V., *et al*, (*ERS*) 254P
——, controlled, to minimize blood loss of anaemic Jehovah's Witness patient undergoing total hip and shoulder replacement, CUNNINGHAM, A. J. A. 895
——, deliberate, microcirculatory effects of, FRANKE, N., *et al.*, (*EAA*) 245P
——, deliberate, pharmacology and clinical management, COTTRELL, J. E., (*ERS*) 255P
——, for and against in neurosurgery, GORDON, E., (*ERS*) 263P
——, induced, drugs used for, COLE, P., (*ERS*) 253P
——, induced, electrical monitoring of the brain in, McDOWALL, D. G., (*ERS*) 259P
——, induced, the place of volatile anaesthetics during, in neurosurgical patients, CUNITZ, G., (*ERS*) 254P
——, organ-specific limitations of induced, BRAUN, U., (*ERS*) 263P
——, sodium nitroprusside induced, effect on pulmonary deadspace, KHAMBATTA, H. J., *et al.* 1197
——, systemic, induced with nitroglycerine, the response of canine intracranial pressure to, BURT, D. E. R., *et al.* 665
Hypotensive agents, specific vascular mechanisms of, PASCH, T., (*ERS*) 253P
Hypotensive drugs, aspects of the effects of, on intracranial pressure, PICKERODT, V. W. A., (*ERS*) 260P
——, autoregulation of cerebral blood flow, effects of, FITCH, W., (*ERS*) 254P

ICI 35 868, effect of preanaesthetic medication on anaesthesia with, BRIGGS, L. P., *et al.* 303
——, pharmacokinetics in humans: single dose studies, ADAM, H. K., *et al.*, (*ARS*) 1138P
I.m. morphine, and extradural morphine, urinary retention during, PETERSEN, T. K., *et al.* 1175
Immunological aspects, of adverse reactions to Althesin, RADFORD, S. G., *et al.*, 859
Infusion, continuous, of suxamethonium, for microlaryngeal surgery, CARNIE, J. 11
Infusion rates, evaluation of, for new i.v. anaesthetic agents, WRIGHT, P. J., *et al.*, (*ARS*) 227P
Inhalation anaesthetic agents, effects on the electrical and mechanical activity of the rat duodenum, WRIGHT, J. W., *et al.* 1223
Inherited Disease and Anaesthesia, 1981. Monographs in Anaesthesiology, 9., ELLIS, F. R., (editor), (*R*) 903
Innovar, anaesthesia, control of breathing after fentanyl and, SMEDSTAD, K. G., *et al.* 599
Inpatient anaesthesia, and outpatient anaesthesia, preoperative starvation and blood glucose concentration in children undergoing, JENSON, B. H., *et al.* 1071
Inspiratory flow waveform, effects of varying, and time, in intermittent positive pressure ventilation: emphysema, BAKER, A. B., *et al.* 547
——, effects of varying, and time, in intermittent positive pressure ventilation: pulmonary oedema, BAKER, A. B., *et al.* 539
Inspiratory hold, cardiorespiratory effects of an, and continuous positive pressure ventilation in goats, PEREZ-CHANDA, R. D., *et al.*, (*ARS*) 783P
Intensive care, control of intracranial pressure (ICP) during, CUNITZ, G., (*EAA*) 248P
Intensive care unit, mobile, based on a standard ambulance trolley bed, PARK, G. R., *et al.* 1081

Intermittent positive pressure ventilation, effects of varying inspiratory flow waveform and time in: emphysema, BAKER, A. B., *et al.* 547
Intervillous blood flow, effect of extradural analgesia using bupivacaine and 2-chloroprocaine on, during normal labour, HOLLMÉN, H. I. *et al.* 837
Intracranial pressure, aspects of the effects of hypotensive drugs on, PICKERODT, V. W. A., (*ERS*) 260P
——, canine, response to systemic hypotension induced with nitroglycerine, BURT, D. E. R., *et al.* 665
——, changes in canine, in response to infusions of sodium nitroprusside and trinitroglycerin, MORRIS, P. J., *et al.* 991
——, control of, during intensive care, CUNITZ, G., (*EAA*) 248P
Intrathecal bupivacaine, CHAMBERS, W. A., (*E*) 799
Intubating conditions, with Org NC 45, CLARKE, R. S. J., *et al.*, (*EAA*) 242P
Intubation, does atropine premedication affect the cardiovascular response to laryngoscopy and, FASSOULAKI, A., *et al.* 1065
——, endotracheal, plasma catecholamine responses to, FELL, D., *et al.*, (*ARS*) 1135P
Intracuff pressure, influence on sore throat after operation and of intubation and type of cuff, JENSEN, P. J., *et al.* 453
Intrathecal morphine, during labour, maternal and fetal concentration of morphine, BONNARDOT, J. P., *et al.* 487
——, effect on the electrophysiological activity of the ureter in rabbit, MAGORA, F., *et al.*, (*EAA*) 238P
——, in tetanus, SUN, S., *et al.*, (*C*) 699
Intrathecal opiates, and extradural opiates, adverse effects of: report of a nationwide survey in Sweden, GUSTAFSSON, L. L., *et al.* 479
Inverted waveforms, origin in the reflection plethysmogram, NIJBOER, J. A., *et al.* 1289
Involuntary muscle movement, WHITWAM, J. G., (*C*) 900
Ischaemic brain injury, hyperglycaemia and tissue lactic acidosis, REHNCRONA, S., (*ERS*) 255P
Isobaric bupivacaine, 0.75% or 0.5%, effects of posture on the spread of spinal anaesthesia with, TUOMINEN, M., *et al.* 313
Isoflurane, a comparison with halothane and enflurane: morbidity in minor gynaecological surgery, TRACEY, J. A., *et al.* 1213
I.v. anaesthetic agents, new, evaluation of infusion rates for, WRIGHT, P. J., *et al.*, (*ARS*) 227P
I.v. anaesthetic technique, total, fentanyl and etomidate plasma concentrations to 6 h after operation, JONES, D., *et al.*, (*ARS*) 1130P
I.v. anaesthetics, adverse responses to, THOMPSON, E. E. M., *et al.*, (*C*) 1145
——, and benzodiazepines, venous sequelae following, KAWAR, P., *et al.*, (*ARS*) 233P
——, the role of Cremophor EL in anaphylactoid reactions to, GLEN, J. B., *et al.*, (*ARS*) 231P

Jaundice, and anaesthesia, HUTSCHCNREUTER, K., *et al.*, (*EAA*) 251P

K^+ release, cellular, interaction with blood glucose concentration and degree of cerebral tissue acidosis under conditions of critical cortical blood flow, HEUSER, D., *et al.*, (*ERS*) 256P
Ketamine, and e.e.g. seizure waves: interaction with anti-epileptic drugs, KAYAMA, Y. 879
——, antagonism by 4-aminopyridine and physostigmine, MARTÍNEZ-AGUIRRE, E., (*C*) 110
Ketamine, comparison with methohexitone of the effects on spinal reflexes: evidence for transmitter receptors as their sites of action, LODGE, D., *et al.*, (*ARS*) 228P
——, methohexitone, Althesin and etomide, efferent vagal discharge and heart rate in response to, in cats, INOUE, K., *et al.* 1105

Labetalol, i.v., in the treatment of hypertension following coronary-artery surgery, MOREL, D. R., *et al.* 1191
Labour, effect of extradural analgesia using bupivacaine and 2-chloroprocaine on intervillous blood flow during normal, HOLLMÉN, A. I., *et al.* 837
Lactate, and haemodynamic changes in early shock, COWAN, B. N., *et al.*, (*ARS*) 786P
Laryngeal microsurgery, STEWARD, D. J., *et al.*, (*C*) 364
Laryngeal reflex, efficacy during oxygen–nitrous oxide sedation (relative analgesia), ROBERTS, G. J., *et al.* 1277
Laryngeal trauma, anaesthetic management of acute, FLOOD, L. M., *et al.* 1339
Laryngoscopy, and intubation, does atropine premedication affect the cardiovascular response to, FASSOULAKI, A., *et al.* 1065
Leak tests, WILSON, M. E., *et al.*, (*C*) 572
Leaky lungs, physiology of, JONES, J. G., *et al.* 705
Lecture Notes on Fluid and Electrolyte Balance, WILLATTS, S. M., (*R*) 1009
Left ventricular diastolic relaxation, enflurane, critical coronary stenosis and, CUTFIELD, G. R., *et al.*, (*ARS*) 1140P
Left ventricular function, echocardiographic assessment of, following induction with Althesin, LEHNER, J. P., *et al.*, (*EAA*) 244P
Left ventricular performance, under halothane anaesthesia, interaction between regional myocardial ischaemia and, FRANCIS, C. M., *et al.* 965
Leg metabolism, porcine malignant hyperthermia VIII, HALL, G. M., *et al.* 941
Levonantradol, e.e.g. analysis and clinical effects of, in human volunteers, LASSNER, J. *et al.*, (*EAA*) 252P
Lignocaine, and fentanyl for spinal block, for Ender nailing in the elderly, OTTENI, J. C., *et al.*, (*EAA*) 238P
——, i.v., analgesic responses to, BOAS, R. A., *et al.* 501
——, plasma concentrations of, and its metabolites during fibreoptic bronchoscopy, JONES, D. A., *et al.* 853
Liver failure, pharmacokinetics of pancuronium bromide in, WARD, S., *et al.*, (*ARS*) 227P
Lobar collapse, effects of dopamine and dobutamine on the distribution of pulmonary blood flow during lobar ventilation hypoxia and, McFARLANE, P. A., *et al.*, (*ARS*) 784P
Lobar ventilation hypoxia, and lobar collapse, effects of dopamine and dobutamine on the distribution of pulmonary blood flow during, McFARLANE, P. A., *et al.*, (*ARS*) 784P
Local anaesthesia, allergy to, FISHER, M. McD., *et al.* 893
Local anaesthetics, drug interactions with, SPROTTE, G., *et al.*, (*EAA*) 242P
Long lasting operations, repetitive administration of pancuronium and vercuronium (Org NC 45, Norcuron) in patients undergoing, BUZELLO, W., *et al.* 1151
Lorazepam, comparison with trimeprazine for oral premedication in paediatric anaesthesia, PETERS, C. G., *et al.* 623
Lower oesophageal sphincter, and β-blocking drugs, VATER, M., *et al.*, (*C*) 899
Lower oesophageal sphincter pressure, diazepam reduces, SMITH, G., *et al.*, (*EAA*) 241P
Low oxygen tensions, in brain tissue, the significance in the aetiology of metabolic alterations under conditions of critical blood flow, GROTE, J., (*ERS*) 262P

Lumbar extradural analgesia, changes in fetal tcP_{O_2} values occurring during labour in association with, WILLCOURT, R. J., *et al.* 635
Lumbar sympathetic blocks, and coeliac plexus blocks, CHERRY, D. A., *et al.* 1037
Lung, oxygen toxicity of the: an update, DENEKE, S. M., *et al.* 737
Lung volume, changes in, during anaesthesia, changes in ($P_{AO_2} - P_{aO_2}$) are unrelated to, HENEGHAN, C. P. H., *et al.*, (*ARS*) 1139P
Lymphocytes, human, sister chromatid exchanges in, after anaesthesia with fluroxene, HUSUM, B., *et al.* 987

Magill anaesthetic systems, clinical comparison with the Bain anaesthetic system during spontaneous respiration, ALEXANDER, J. P. 1031
Magill intubating forceps, ZUCK, D., (*C*) 573
Malignant hyperthermia-susceptible pigs, metabolism of monoamines in, BARDSLEY, M. E., *et al.* 1313
Malposition, of a central venous catheter, WEEDEN, D., *et al.*, (*C*) 109
Management of Head Injuries, JENNETT, B., *et al.*, (*R*) 371
Mass spectrometry, remote monitoring by, during anaesthesia. *Evaluation of a suitable inlet system,* GORDON, G., *et al.* 15
Maternal morphine, and fetal concentration, after intrathecal administration during labour, BONNARDOT, J. P., *et al.* 487
Membrane Physiology and Cell Excitation, HENDRY, B., (*R*) 368
Metabolic response, and endocrine response to upper abdominal surgery, effect of extradural analgesia and vagal blockade on, TRAYNOR, C., *et al.* 319
Metallized plastic sheeting, reduction of heat loss in neurosurgical patients using, TELFER BRUNTON, J. L. A., *et al.* 1201
Methadone, i.v., acute kinetics in man: relationship to chronic studies, BULLINGHAM, R. E. S., *et al.* 1271
Methaemoglobin formation, after nitroglycerin infusion, HUSUM, B., *et al.*, (*C*) 571
Methionine, serum, and hepatic enzyme activity in anaesthetists exposed to nitrous oxide, NUNN, J. F., *et al.* 593
Methohexitone, Althesin, ketamine and etomidate, afferent vagal discharge and heart rate in response to, in cats, INOUE, K., *et al.* 1105
——, and tubocurarine, actions at the chick neuromuscular function, WALI, F. A., (*ARS*) 1134P
——, comparison with Althesin and etomidate. Recovery from day-case anaesthesia, CRAIG, J., *et al.* 447
——, comparison with ketamine, of the effects on spinal reflexes: evidence for transmitter receptors as their sites of action, LODGE, D., *et al.*, (*ARS*) 228P
——, influence of age and weight on the pressure reversal of, in the rat, HALSEY, M. J., *et al.*, (*ARS*) 786P
Metyrosine, use in the anaesthetic management of patients with catecholamine-secreting tumours. *A case report,* TRINER, L. *et al.* 1333
Microcirculatory effects, of deliberate hypotension, FRANKE, N., *et al.*, (*EAA*) 245P
Microcomputer-based technique for the measurement of respiratory depression in postoperative patients, HOWIE, J. C., *et al.*, (*ARS*) 783P
Microlaryngeal surgery, continuous suxamethonium surgery for, CARNIE, J. 11
Microprocessor-based analysis, of skeletal muscle twitch tension, LESLIE, G. C., *et al.*, (*ARS*) 233P
Midazolam, acute desensitization of the central respiratory effects of, in the dog, AL-KHUDHAIRI, D., *et al.*, (*ARS*) 228P
——, acute "tolerance" to the central respiratory effects of, in the dog, AL-KHUDHAIRI, D., *et al.* 953
——, and thiopentone, haemodynamic effects of, during induction of anaesthesia for coronary artery surgery, AL-KHUDHAIRI, D., *et al.* 827
Midazolam, as a sedative in dentistry, KAWAR, P., *et al.*, (*ARS*) 1137P
——, as a sedative in endoscopy, DUNDEE, J. W., *et al.*, (*ARS*) 1136P
——, effect of different kinds of premedication on the induction properties of, KANTO, J., *et al.* 507
——, fentanyl and enflurane, pharmacokinetic data obtained by a new method for arbitrary application schemes, SCHWILDEN, H., *et al.*, (*EAA*) 237P
——, haemodynamic responses to induction of anaesthesia using, in cardiac surgical patients, SCHULTE-SASSE, U., *et al.* 1053
——, use as an induction agent: comparison with thiopentone, JENSON, S., *et al.* 605
Minor surgery, Althesin and alfentanil for, KAY, B., *et al.*, (*EAA*) 246P
Mitral stenosis, radiocardiographic evaluation of induction of neuroleptanaesthesia in patients with, SZULC, R., *et al.*, (*EAA*) 243P
Mobile intnsive care unit, based on a standard ambulance trolley bed, PARK, G. R., *et al.* 1081
Monitoring e.e.g., critical comparison of cerebral function (CFM), compressed spectral array (CSA) and evoked response under conditions of decreased cerebral perfusion, PRIOR, P. F., (*ERS*) 259P
Monitoring, respiration in the postoperative period, HANNING, C. D., (*E*) 577
Monoamines, metabolism in malignant hyperthermia-susceptible pigs, BARDSLEY, M. E., *et al.* 1313
Morbidity, anaesthetic, and mortality, SCOTT, D. B., (*E*) 477
——, in minor gynaecological surgery: a comparison of halothane, enflurane and isoflurane, TRACEY, J. A., *et al.* 1213
Morphine, accidental high-dose extradural, MØLLER, T. W., *et al.*, (*C*) 1237
——, and its interactions with alfentanil: a study of analgesic activity of alfentanil in the mouse, WILLIAMS, J. G., *et al.* 81
——, and the extradural space, BITSCH-LARSEN, L., *et al.*, (*C*) 573
——, extradural, dose–effect relationships of, PYBUS, D. A., *et al.* 1259
——, extradural and parenteral: kinetics and effects in postoperative pain. A controlled clinical study, GUSTAFSSON, L. L., *et al.* 1167
——, extradural and Stokes–Adams attacks, CHRISTENSEN, P., *et al.*, (*C*) 363
——, extradural, influence of, on the adrenocortical and hyperglycaemic response to surgery, CHRISTENSEN, P., *et al.* 23
——, extradural, in obstetric anaesthesia, DICK, W. F., *et al.*, (*EAA*) 239P
——, extradural, the respiratory depression of, McCAUGHEY, W., *et al.*, (*ARS*) 225P
——, i.m., controlled comparison with buprenorphine for analgesia after abdominal surgary, COOK, P. J., *et al.* 285
——, i.m., for pain relief after abdominal surgery—a comparison with sublingual buprenophine and self-administered i.v. pethidine, ELLIS, R., *et al.* 421
——, intrathecal, effect on the electrophysiological activity of the ureter in rabbit, MAGORA, F., *et al.*, (*EAA*) 238P
——, intrathecal, in tetanus, SUN, S., *et al.*, (*C*) 699
——, maternal and fetal concentration of, after intrathecal administration during labour, BONNARDOT, J. P., *et al.* 487
——, plasma pharmacokinetics of, after i.m., extradural and intrathecal administration, CHAUVIN, M., *et al.* 843
——, urinary retention during i.m. and extradural, PETERSEN, T. K., *et al.* 1175

Morphine infusion, continuous, postoperative respiratory depression associated with, CATLEY, D. M., *et al.*, (*ARS*) 235P
Mortality, anaesthetic, and morbidity, SCOTT, D. B., (*E*) 477
——, in hospital, factors affecting. Epidemiology in anaesthesia II, FARROW, S. C., *et al.* 811
Mortality risk, in patients with coexisting physical disease. Epidemiology in anaesthesia, FOWKES, F. G. R., *et al.* 819
Multi-gas analysis, a sandwich electrode for: a prototype, HAHN, C. E. W., *et al.* 681
Multiple regression analysis, some capabilities and limitations of: application to canine coronary blood flow, BLACK, A. M. S., *et al.* 1319
Muscle fibre, the activity of certain transporting enzymes and myofibrillar calcium-binding protein content in the experimental porcine malignant hyperthermia, NIEBRÓJ-DOBOSZ, I., *et al.* 885
Muscle paralysis, identification of interacting dynamic effects on, using Ethrane in the presence of pancuronium, ASBURY, A. J., *et al.*, (*ARS*) 790P
Muscle relaxants, competitive, pharmacokinetics of, MILLER R. D. 161
Myocardial contractility, assessment of regional: the use of the end-systolic pressure–length relationship, FRANCIS, C. M., *et al.* (*ARS*) 1141
Myocardial infarction, arterial hypertension as contributory factor to the risks from anaesthesia and surgery in patients with myocardial infarction, TRIANTAPHYLLIDIS, A. A., *et al.*, (*EAA*) 246P
Myocardial ischaemia, regional, interaction between left ventricular performance under halothane anaesthesia and, FRANCIS, C. M., *et al.* 965
Myoclonia, preoperative buprenorphine does not prevent, seen after etomidate, KLAUSEN, N.-O., *et al.* (*C*) 475
Myoglobin, serum, and CPK release following suxamethonium, studied using a new radioimmunoassay technique, LAURENCE, A. S., *et al.*, (*ARS*) 1134P
Myoneural actions, of Org NC 45, TORDA, T. A., *et al.* 1217
Myoneural blocking agent, competitive, initial clinical experiences with Org NC 45, FERRES, C. J., *et al.*, (*ARS*) 789P

Narcotic analgesics, comparison of four, for extradural analgesia, TORDA, T. A., *et al.* 291
Narcotics, dural permeability to: *in vitro* determination and application to extradural administration, MOORE, R. A., *et al.* 1117
Neonates, status of, delivered by elective Caesarean section, CRAWFORD, J. S., *et al.* 1015
Neostigmine, antagonism of Org NC 45 (Vecuronium) and pancuronium neuromuscular blockade by, GENCARELLI, P. J., *et al.* 53
——, effect of hypocarbia and hypercarbia on the antagonism of pancuronium-induced neuromuscular blockade with, in man, WIRTAVUORI, K., *et al.* 57
——, hazards of, in patients with neuromuscular disorders. *Report of two cases*, BUZELLO, W., *et al.* 529
——, impaired antagonism of pancuronium during enflurane anaesthesia in man, DELISLE, S., *et al.* 441
——, reversibility of an Org NC 45 neuromuscular blockade under halothane and enflurane anaesthesia in the cat, BOOIJ, L., *et al.*, (*EAA*) 242P
Natural Blockade in Clinical Anesthesia and Management of Pain, COUSINS, M. J., *et al.*, (editors), (*R*) 1148
Neuroleptanaesthesia, radiocardiographic evaluation of induction of, in patients with mitral stenosis, SZULC, R., *et al.*, (*EAA*) 243P
Neurological surgery, the use of evoked potentials as a functional monitor in, with particular reference to subarachnoid haemorrhage and posterior fossa tumours, SYMON, L., (*ERS*) 258P
Neuromuscular block, antagonism of, CLARKE, R. S. J., *et al.*, (*C*) 793
Neuromuscular blockade, NORMAN, J., (*E*) 113
——, antagonism of, CRONNELLY, R., *et al.* 183
——, pancuronium-induced, effect of hypocarbia and hypercarbia on the antagonism of, with neostigmine in man, WIRTAVUORI, K., *et al.* 57
——, recovery from, after infusion of atracurium, MADDEN, A. P., *et al.* (*ARS*) 226P
Neuromuscular blocking action, of atracurium in the dog, JONES, R. S., *et al.*, (*ARS*) 788P
Neuromuscular blocking agents, non-depolarizing, pharmacodynamics of, HULL, C. J. 169
Neuromuscular blocking drugs, and anaesthetic drugs, interactions with those drugs commonly used for controlled hypotension, HEMPEL, V., *et al.*, (*EAA*) 254P
——, non-relaxant properties of, BOWMAN, W. C. 147
Neuromuscular blocking potency, and ganglion blocking potency ratios, *in vitro* comparison of atracurium and tubocurarine, HEALY, T. E. J., *et al.*, 1307
Neuromuscular disorders, hazards of neostigmine in patients with. *Report of two cases*, BUZELLO, W., *et al.* 529
Neuromuscular function, chick, actions of methohexitone and tubocurarine on the, WALI, F. A., (*ARS*) 1134P
——, release of transmitter at the, STANDAERT, F. 131
Neuromuscular transmission, clinical assessment of, VIBY-MOGENSEN, J. 209
Neuropathology, of stagnant hypoxia cerebral blood flow and the concept of thresholds of ischaemia, GRAHAM, D. I., (*ERS*) 260P
Neurosurgery, for and against hypotension in, GORDON, E., (*ERS*) 263P
Neurosurgical Anaesthesia and Intensive Care, CAMPKIN, T. V., *et al.*, (*R*) 368
Neurosurgical patients, cerebral blood flow and oxygen consumption during controlled hypotension in, LARSEN, R., *et al.*, (*ERS*) 262P
——, reduction of heat loss in, using metallized plastic sheeting, TELFER BRUNTON, J. L. A., *et al.* 1201
——, the place of volatile anaesthetics during induced hypotension in, CUNITZ, G., (*ERS*) 254P
New i.v. anaesthetic agents, evaluation of infusion rates for, WRIGHT, P. J., *et al.*, (*ARS*) 227P
Nitrogen excretion, and heat loss, relationship between, in elderly patients undergoing major abdominal surgery under general anaesthetic, CARLI, F., *et al.* 1023
Nitroglycerine, the response of canine intracranial pressure to systemic hypotension induced with, BURT, D. E. E., *et al.* 665
Nitroglycerine infusion, methaemoglobin formation after, HUSUM, B., *et al.*, (*C*) 571
Nitroprusside, cyanide release from, SMITH, R. P., *et al.* (*C*) 1146
Nitroprusside-induced hypotension, and trimetaphan-induced hypotension, comparison of changes of e.c.f. potassium concentration and pH of the brain between, MORRIS, P. J., *et al.*, (*ERS*) 257P
Nitroprusside–trimetaphan mixture, during halothane anaesthesia, cardiovascular effect, WILDSMITH, J. A. W., *et al.*, (*ARS*) 1136P
Nitrous oxide, alone or in combination with fentanyl, effect on spinal reflexes in cats, SUGAI, N., *et al.* 567
——, in oxygen anaesthesia, measurement of oxygen uptake: a new system for the measurement of oxygen uptake during, COHEN, A. T., *et al.*, (*ARS*) 78P
——, in oxygen, and tracheal tube cuff volumes, BRANDT, L., (*C*) 1238
——, serum methionine and hepatic enzyme activity in anaesthetists exposed to, NUNN, J. F., *et al.* 593
——, the additive effect on respiratory depression in patients having fentanyl or alfentanil infusions, ANDREWS, C. J.

H., *et al.* (*ARS*) 1129P
Nodal rhythm, and pancuronium, HEINONEN, J., *et al.*, (*C*) 109
Non-depolarizing neuromuscular blocking agents, pharmacodynamics of, HULL, C. J. 169
Non-invasive Cardiovascular Monitoring by Electrical Impedance Technique, MOHAPATRA, S. N., (*R*) 372
Non-relaxant properties, of neuromuscular blocking drugs, BOWMAN, W. C. 147
Norcuron, (vecuronium, Org NC 45) and pancuronium, repetitive administration in patients undergoing long lasting operations, BUZELLO, W., *et al.* 1151

Obesity, and age, influence on the dose–response effect of Althesin infusion on the e.e.g., HENDERSON, J. J., *et al.*, (*ARS*) 1138P
——, morbid, ROUTH, G., *et al.*, (*C*) 364
Obstetric anaesthesia, extradural morphine in, DICK, W. F., *et al.*, (*EAA*) 239P
Obstetric Analgesia and Perinatology, COSMI, E. V., (*R*) 905
Obstetric analgesia, with fentanyl–bupivacaine by the extradural route, NALDA, M. A., *et al.*, (*EAA*) 250P
Oculocardiac reflex, a study of glycopyrrolate and atropine in the suppression of the, during strabismus surgery in children, HUNSLEY, J. E., *et al.* 459
——, i.m. or i.v. atropine or glycopyrrolate for the prevention of, in children undergoing squint surgery, MIRAKHUR, R. K., *et al.* 1059
Oesophageal pressure, measurement of the inaccuracy of, for pleural pressure estimation, DRUMMOND, G. B., *et al.* (*ARS*) 230P
One-lung ventilation, of children during surgical excision of hydatid cysts of the lung, BARAKA, A., *et al.* 523
Onset time, and duration of action for atracurium, Org NC 45 and pancuronium, GRAMSTAD, L., *et al.* 827
Opioid anaesthesia — fact or fallacy?, SEBEL, P. S. and BOVILL, J. G., (*E*) 1149
Opoids, and etidocaine for extradural analgesia, effects on endocrine function, ARROYO, J. L., *et al.*, (*EAA*) 240P
Oral atropine, or hyoscine, influence on the absorption of oral diazepam, GREGORETTI, S. M., *et al.* 1231
Oral diazepam, influence of oral atropine or hyoscine on the absorption of, GREGORETTI, S. M., *et al.* 1231
Oral premedication, comparative study of lorazepam and trimeprazine for, in paediatric anaesthesia, PETERS, C. G., *et al.* 623
Organ-specific limitations, of induced hypotension, BRAUN, U., (*ERS*) 263P
Org NC 45, a competitive myoneural blocking agent, initial clinical experiences with, FERRES, C. J. *et al.*, (*ARS*) 789P
——, age-dependent dose–response relationship in anaesthetized patients, D'HOLLANDER, A., *et al.* 653
——, atracurium and pancuronium, onset time and duration of action for, GRAMSTAD, L., *et al.* 827
——, clinical studies on: comparison with pancuronium, KERR, W. J., *et al.* 1159
——, comparison of the effects of, and pancuronium bromide on heart rate and arterial pressure in anaesthetized man, BARNES, P. K., *et al.* 435
——, dose-relationship for, atracurium and pancuronium, GRAMSTAD, L., *et al.* 647
——, intubating conditions with, CLARKE, R. S. J., *et al.*, (*EAA*) 241P
——, myoneural actions of, TORDA, T. A., *et al.* 1217
——, pharmacokinetics of, KOPMAN, A. F., (*C*) 699
——, placental transfer of, in women undergoing Caesarean section, DEMETRIOU, M., *et al.* 643
——, some actions of, and of edrophonium in the anaesthetized cat and in man, BAIRD, W. L. M., *et al.*, 375
——, tubocurarine, fazadinium and pancuronium, binding to serum proteins in normal man and in patients with cirrhosis, DUVALDESTIN, P., *et al.* 513
Org NC 45, (Vecuronium), antagonism of, and pancuronium neuromuscular blockade by neostigmine, GENCARELLI, P. J., *et al.* 53
——, (Vecuronium, Norcuron) and pancuronium, repetitive administration in patients undergoing long lasting operations, BUZELLO, W., *et al.* 1151
Org NC 45 neuromuscular blockade, reversibility by neostigmine of, under halothane and enflurane anaesthesia in the cat, BOOIJ, L., *et al.*, (*EAA*) 242P
Orthopaedic postoperative pain, zomepirac, placebo and paracetamol/dextropropoxyphene combination compared in, EVANS, P. J. D., *et al.* 927
Oscillotonometer, accuracy of the, HUTTON, P., *et al.*, (*ARS*) 234P
——, in theory and practice, HUTTON, P., *et al.* 581
Outpatient anaesthesia, and inpatient anaesthesia, preoperative starvation and blood glucose concentrations in children undergoing, JENSON, B. H., *et al.* 1071
Overdose, of barbiturates, pattern of respiration in patients recovering from, GAUTIER, H., *et al.* 1041
Oxidative metabolism, and blood flow of the young adult and ageing brain, HOYER, S., (*ERS*) 258P
Oxygen breathing, residual volume change following, BAKER, A. B., *et al.*, (*ARS*) 784P
Oxygen consumption, and cerebral blood flow, during controlled hypotension in neurosurgical patients, LARSEN, R., *et al.*, (*ERS*) 262P
Oxygen masks, an evaluation of three fixed performance, a new approach, HILL, S. L., *et al.*, (*ARS*) 785P
Oxygen–nitrous oxide, sedation (relative analgesia), efficacy of the laryngeal reflex during, ROBERTS, G. J., *et al.* 1277
Oxygen toxicity, of the lung: an update, DENEKE, S. M., *et al.* 737
Oxygen uptake, measurement of: a new system for the measurement of oxygen uptake during nitrous oxide in oxygen anaesthesia, COHEN, A. T., *et al.*, (*ARS*) 785P

Paediatric anaesthesia, comparative study of lorazepam and trimeprazine for oral premedication in, PETERS, C. G., *et al.* 623
——, transcutaneous Po_2 continuous recording in, GHNASSIA, M. D., *et al.*, (*EAA*) 247P
Paediatric Anaesthesia. Trends in Current Practice, JACKSON REES, G., *et al.*, (editors), (*R*) 575
Pain on infection, frequency of, and venous sequelae following the i.v. administration of certain anaesthetics and sedatives, KAWAR, P., *et al.* 935
Pain relief, pituitary function following hypophysectomy for, EVANS, P. J. D., *et al.* 921
Pancuronium, and nodal rhythm, HEINONEN, J., *et al.*, (*C*) 109
——, and Vecuronium (Org NC 45, Norcuron), repetitive administration in patients undergoing long lasting operations, BUZELLO, W., *et al.* 1151
——, antagonism of, in renal failure: no recurarization, BEVAN, D. R., *et al.* 63
——, atracurium and Org NC 45, onset time and duration of action for, GRAMSTAD, L., *et al.* 827
——, comparison with Org NC 45, clinical studies, KERR, W. J., *et al.* 1159
——, dose–response relationship for, atracurium and Org NC 45, GRAMSTAD, L., *et al.* 647
——, identification of interacting dynamic effects on muscle paralysis using Ethrane in the presence of, ASBURY, A. J., *et al*, (*ARS*) 790P
——, impaired neostigmine antagonism of, during enflurane anaesthesia in man, DELISLE, S., *et al.* 441
——, neuromuscular blockade, and antagonism of Org NC 45

(Vecuronium) by neostigmine, GENCARELLI, P. J., *et al.* 53
Pancuronium, resistance to, and haemoconcentration, BARAKA, A., *et al.* (*C*) 573
——, supraventricular tachycardia following, SHAH, S. C., *et al.*, (*C*) 1237
——, tubocurarine, fazadinium and Org NC 45, binding to serum proteins in normal man and in patients with cirrhosis, DUVALDESTIN, P., *et al.* 513
Pancuronium bromide, comparison of the effects of, and Org NC 45, on heart rate and arterial pressure in anaesthetized man, BARNES, P. K., *et al.* 435
——, pharmacokinetics of, in liver failure, WARD, S., *et al.*, (*ARS*) 227P
($P_{A_{O_2}} - P_{a_{O_2}}$), changes in, are unrelated to changes in lung volume during anaesthesia, HEWLETT, C. P. H., *et al.*, (*ARS*) 1139P
Paracetamol/dextropropoxyphene combination, placebo and zomepirac compared in orthopaedic postoperative pain, EVANS, P. J. D., *et al.*, 927
Parenteral morphine, and extradural morphine: kinetics and effects in postoperative pain. A controlled clinical study, GUSTAFSSON, L. L., *et al.* 1167
Parenteral ranitidine, onset and duration of action, DAMMANN, H. G., *et al.* 1235
Peak flow of gases, effect of helium concentration on, VATER, M., *et al.*, (*ARS*) 228P
Pediatric Anesthesia: Current Practise, Volume 1, RAMEZ SALEM, M., (editor), (*R*) 794
Pentazocine, pattern of reduction of ventilatory and occlusion pressure response to carbon dioxide by, in man, DRUMMOND, G. B., *et al.* 87
Pentolinium, in postoperative hypertension, WALTERS, F., (*C*) 1143
Perioperative changes, in complement associated with cardiopulmonary bypass, BORALESSA, H., *et al.* 1047
Peripheral vascular effects, of enflurane and halothane, BEERS, H. T. B., *et al.*, (*ARS*) 788P
Pethidine, extradural, with and without adrenaline during labour: wide variation in effect, SKJOLDEBRAND, A., *et al.* 415
——, self-administered i.v., for pain relief after abdominal surgery—a comparison with i.m. morphine and sublingual buprenorphine, ELLIS, R., *et al.* 421
——, the disposition of plasma, in 10 volunteers under conditions of varied urinary pH, JENNINGS, F., *et al.*, (*ARS*) 225P
Phaeochromocytoma, resection, plasma catecholamine concentrations and haemodynamic studies during, MARTY, J., *et al.*, (*EAA*) 249P
——, use of metyrosine in the anaesthetic management of patients with . *A case report,* GALLAGHER, R., *et al.* 1337
Pharmacodynamics, of non-depolarizing neuromuscular blocking agents, HULL, C. J. 169
Pharmacokinetic data, of fentanyl, midazolam and enflurane obtained by a new method for arbitrary application schemes, SCHWILDEN, H., *et al.*, (*EAA*) 237P
Pharmacokinetics, comparative, of fentanyl and alfentanil, BOWER, S., *et al.* 871
——, comparative, of fentanyl and alfentanil, HULL, C. J., *et al.*, (*EAA*) 237P
——, in humans of ICI 35868: single dose studies, ADAM, H. K., *et al.*, (*ARS*) 1138P
——, of Althesin by infusion to man, effect of anti-hypertensive therapy on the, SEAR, J. W., *et al.*, (*ARS*) 1130P
——, of competitive muscle relaxants, MILLER, R. D. 161
——, of fentanyl in children, SAINT-MAURICE, C., *et al.*, (*EAA*) 252P
——, of Org NC 45, KOPMAN, A. F., (*C*) 699
——, of pancuronium bromide in liver failure, WARD, S., *et al.*, (*ARS*) 227P
Phenoperidine analgesia, *v.* extradural analgesia: blood loss in total hip replacement, CHIN, S. P., *et al.* 491
Phentolamine, effect on the metabolic response to gynaecological surgery, WALSH, E. S., *et al.* 517
Phenylephrine, systemic reaction to subarachnoid injection of, FREDRIKSEN, A. 1341
pH of the brain, comparison of changes in e.c.f. potassium concentration and, between trimetaphan- and nitroprusside-induced hypotension, MORRIS, P. J., *et al.*, (*ERS*) 257P
Physostigmine, antagonism of ketamine by 4-aminopyridine and, MARTÍNEZ-AGUIRRE, E., (*C*) 110
——, effect on morphine-induced postoperative pain and somnolence, WEINSTOCK, M., *et al.* 429
Pigs, metabolism of monoamines in malignant hyperthermia-susceptible, BARDSLEY, M. E., *et al.* 1313
Pipecurium bromide, (Arduan), a new steroid neuromuscular blocking agent, preliminary studies in man with, NEWTON, D. E. F., *et al.*, (*ARS*) 789P
Pituitary functions, following hypophysectomy for pain relief, EVANS, P. J. D., *et al.* 921
Plasma albumin, concentration, changes in colloid osmotic pressure and, associated with extracorporeal circulation, SANCHEZ da LEON, K., *et al.* 465
Plasma β-endorphin-like immunoreactivity, influence of medication, pain and progress in labour on, THOMAS, T. A., *et al.* 401
Plasma catecholamines, in anaesthesia, FELL, D., *et al.*, (*ARS*) 231P
Plasma concentrations, and clinical effects, single-dose comparison of buprenorphine 0.3 and 0.6 mg i.v. given after operation, WATSON, P. J. Q., *et al.* 37
Plasma pharmacokinetics, of morphine after i.m., extradural and intrathecal administration, CHAUVIN, M., *et al.* 843
Platelet function, in malignant hyperpyrexia, SULLIVAN, J. S., *et al.*, (*C*) 900
Pleural pressure estimation, measurement of the inaccuracy of oesophageal pressure for, DRUMMOND, G. B., *et al.*, (*ARS*) 230P
Porcine malignant hyperthermia, VIII: Leg metabolism, HALL, G. M., *et al.* 941
Positive end-expiratory pressure, and air embolism in the sitting position, GILSANZ, F. J., *et al.*, (*C*) 110
Positive pressure ventilation, continuous, cardiorespiratory effects of an inspiratory hold and, in goats, PEREZ-CHADA, R. D., *et al.*, (*ARS*) 783P
Posterior fossa surgery, CAMPKIN, T. V., (*C*) 574
——, WALTERS, F., *et al.*, (*C*) 363
Posterior fossa tumours, the use of evoked potentials as a functional monitor in neurological surgery with particular reference to subarachnoid haemorrhage and, SYMON, L., (*ERS*) 258P
Postjunctional blocking effects, and prejunctional blocking effects, of aminoglycoside, polymixin, tetracycline and lincosamide antibiotics, SINGH, Y. N., *et al.* 1295
Postoperative analgesia, after circumcision in children, MARTIN, L. V. H. 1263
Postoperative buprenorphine, HULL, C. J., (*C*) 1144
Postoperative glucose tolerance, during extradural analgesia, BUCKLEY, F. P., *et al.* 325
Postoperative hypertension, pentolinium in, WALTERS, F., (*C*) 1143
Postoperative pain, etodolac in: a double-blind study with aspirin and placebo, ROLLY, G., *et al.*, (*EAA*) 250P
——, kinetics and effects in: extradural and parenteral morphine. A controlled clinical study, GUSTAFFSON, L. L., *et al.* 1167
——, morphine-induced, and somnolence, effect of physostigmine on, WEINSTOCK, M., *et al.* 429
Postoperative pain relief, using the "Cardiff" demand analgesia apparatus, patient administration of i.v. buprenorphine for, GIBBS, J. M., *et al.* 279
Postoperative patients, a microcomputer based technique for

the measurement of respiratory depression in, HOWIE, J. C., *et al.*, (*ARS*) 783P
Postoperative period, monitoring respiration in the, HANNING, C. D., (*E*) 577
Postoperative respiratory depression, associated with continuous morphine infusion, CATLEY, D. M., *et al.*, (*ARS*) 235P
Posture, and some c.s.f. characteristics, effect on spinal anaesthesia with isobaric 0.5% bupivacaine, KALSO, E., *et al.* 1179
——, effects of on the spread of spinal anaesthesia with isobaric 0.75% or 0.5% bupivacaine, TUOMINEN, M., *et al.* 313
Preanaesthetic medication, effect on anaesthesia with ICI 35868, BRIGGS, L. P., *et al.* 303
Prejunctional blocking effects, and postjunctional blocking effects of aminoglycoside, polymyxin, tetracycline and lincosamine antibiotics, SINGH, Y. N., *et al.* 1295
Premedicants, comparison of i.m. diazepam and hydroxyzine as, HERR, G. P., *et al.* 3
——, effect on the cardiovascular system: is premedication with atropine necessary?, FASSOULAKI, A., *et al.*, (*EAA*) 243P
Premedication, effect of different kinds of, on the induction properties of midazolam, KANTO, J., *et al.* 507
——, effects on diprivan induction, FRAGEN, R. J., *et al.* 913
——, influence on plasma ACTH and cortisol concentrations in children during adenoidectomy, SIGURDSSON, G., *et al.* 1075
Problems in Anaesthesia—A Case Study Approach, RAVIN, I. (*R*) 1345
Propylene glycol, diazepam and its solvent, acute central respiratory effects, AL-KHUDHAIRI, D., *et al.* 959
Pseudohypertrophic muscular dystrophy, unsuspected, suxamethonium associated with hypertonicity and cardiac arrest in, LINTER, S. P. K., *et al.* 1331
Pulmonary airway calibre, assessment of, LEHANE, J. R. 751
Pulmonary blood flow, effects of dopamine and dobutamine on the distribution of, during, lobar ventilation hypoxia and lobar collapse, McFARLANE, P. A., *et al.*, (*ARS*) 784P
Pulmonary circulation, effects of thiopentone on the, DOLAK, D., *et al.*, (*EAA*) 250P
Pulmonary deadspace, effect of sodium nitroprusside-induced hypotension on, KHAMBATTA, H. J., *et al.* 1197
Pulmonary fat embolism syndrome: clinical, pathological and therapeutic aspects, GIURIARO, P. M., *et al.*, (*EAA*) 247P
Pulmonary oedema, effects of varying inspiratory flow waveform and time in intermittant positive pressure ventilation, BAKER, A. B., *et al.* 539

Rabbit, effect of intrathecal morphine on the electrophysiological activity of the ureter in, MAGORA, F., *et al.*, (*EAA*) 238P
——, stereophotogrammetric evaluation of tracheal volumes in the, LINDAHL, S., *et al.* 997
Radiocardiographic evaluation, of induction of neuroleptanaesthesia in patients with mitral stenosis, SZULC, R., *et al.*, (*EAA*) 243P
Radiocardiography, in the intensive care unit: preliminary report, SZULC, R., *et al.*, (*EAA*) 251P
Radioimmunoassay, a new technique to study serum myoglobin and CPK release following suxamethonium, LAURENCE, A. S., *et al.*, (*ARS*) 1134P
Ranitidine, parenteral: onset and duration of action, DAMMANN, H. G. *et al.* 1235
Rat, a study of chronic exposure to enflurane at 200 p.p.m. Is it teratogenic or toxic?, MONK, S. J., *et al.*, (*ARS*) 1139P
——, influence of age and weight on the pressure reversal of methohexitone in the, HALSEY, M. J., *et al.*, (*ARS*) 786P
Rat duodenum, effects of inhalation anaesthetic agents on the electrical and mechanical activity of the, WRIGHT, J. W., *et al.* 1223
Rat fetal development, and maternal exposure to trichloroethylene 100 p.p.m., HEALY, T. E. J., *et al.* 337
Recent Advances in Anaesthesia and Analgesia, Volume 14, ATKINSON, R. S., *et al.*, (editors), (*R*) 1346
Recovery, from day-case anaesthesia supplemented with alfentanil, assessment, SINCLAIR, M., *et al.*, (*ARS*) 1138P
Recurarization, no: antagonism of pancuronium in renal failure, BEVAN, D. R., *et al.* 63
Reflection plethysmogram, the origin of inverted waveforms in the, NIJBOER, J. A., *et al.* 1289
Remote monitoring, by mass spectrometry during anaesthesia. *Evaluation of a suitable inlet system*, GORDON, G., *et al.* 15
Renal autoregulation, and function: effects of halothane and sodium nitroprusside on, OHMURA, A., *et al.* 103
Renal failure, antagonism of pancuronium in: no recurarization, BEVAN, D. R., *et al.* 63
Renal function, absent, use of atracurium in patients with, HUNTER, J. M., *et al.* 1251
——, and autoregulation, effects of halothane and sodium nitroprusside on, OHMURA, A., *et al.* 103
Residual volume change, following oxygen breathing, BAKER, A. B., *et al.*, (*ARS*) 784P
Respiration, assessment of the effects of drugs on, JORDAN, C. 763
——, monitoring, in the postoperative period, HANNING, C. D., (*E*) 577
Respiratory depression, a microcomputer based technique for the measurement of, in postoperative patients, HOWIE, J. C., *et al.* (*ARS*) 783P
——, during enflurane anaesthesia corrected by almitrine in the dog but not in humans, LASSNER, J., *et al.*, (*EAA*) 240P
——, of extradural morphine, McCAUGHEY, W., *et al.*, (*ARS*) 225P
——, postoperative, associated with continuous morphine infusion, CATLEY, D. M., *et al.*, (*ARS*) 235P
——, the additive effect of nitrous oxide on, in patients having fentanyl or alfentanil infusions, ANDREWS, C. J. H., *et al.*, (*ARS*) 1129P
——, with buprenorphine: onset time and reversal, ROSEN, M., *et al.*, (*EAA*) 240P
Respiratory distress syndrome, adult, FEIN, J. G., *et al.* 723
Respiratory dysfunction, and the anaesthetist, JONES, J. G. 701
Respiratory pattern, in patients recovering from barbiturate overdose, GAUTIER, H., *et al.* 1041

Sandwich electrode, for multi-gas analysis; a prototype, HAHN, C. E. W., *et al.* 681
Scavenging valve, the performance of, FOSTER, P. A. 359
Sedative, midozolam as a, in dentistry, KAWAR, P., *et al.*, (*ARS*) 1137P
——, midazolam as a, in endoscopy, DUNDEE, J. W., *et al.*, (*ARS*) 1136P
Servo-control, of closed circuit anaesthesia, HAWES, D. W., *et al.*, (*ARS*) 229P
Shock, early, lactate and haemodynamic changes in, COWAN, B. N., *et al.*, (*ARS*) 786P
Sister chromatid exchanges, in human lymphocytes after anaesthesia with fluroxene, HUSUM, B., *et al.* 987
Sitting position, air embolism in the, MARSHALL, M., (*C*) 791
Skeletal muscle twitch tension, microprocessor-based analysis of, LESLIE, G. C., *et al.*, (*ARS*) 233P
Soda-lime, halothane adsorption complicating the use of, to humidify anaesthetic gases, GRODIN, W. K., *et al.* 555
——, mechanisms of halothane adsorption by dry, GRODIN, W. K., *et al.* 561
Sodium nitroprusside, and cyanide release, VESEY, C. J., *et al.*, (*C*) 791
——, and trinitroglycerin, changes in canine intracranial

pressure in response to infusions of, MORRIS, P. J., *et al.* 991
Sodium nitroprusside, effects of, and halothane, on renal function and autoregulation, OHMURA, A., *et al.* 103
——, induced hypotension, effect on pulmonary deadspace, KHAMBATTA, H. J., *et al.* 1197
——, rebound arterial hypertension following discontinuation of, FAHMY, N. R., (*ERS*) 253P
Somatic pain, comparison of the effect of diisopropyl phenol (ICI 35 868) and thiopentone on response to, BRIGGS, L. P., *et al.* 307
Sore throat, after operation: influence of tracheal intubation, intracuff pressure and type of cuff, JENSEN, P. J., *et al.* 453
Spinal anaesthesia, effect of added vasoconstrictors on, with hyperbaric bupivacaine, CHAMBERS, W. A., *et al.*, (*ARS*) 230P
——, effects of posture on the spread of, with isobaric 0.75% or 0.5% bupivacaine, TUOMINEN, M., *et al.* 313
——, with isobaric amethocaine, effect of injected volume and speed of injection on the spread of, McCLURE, J. J., *et al.* 917
——, with isobaric 0.5% bupivacaine, effect of posture and some c.s.f. characteristics on spinal anaesthesia, KALSO, E., *et al.* 1179
Spinal analgesia, with hyperbaric bupivacaine: effects of concentration and volume administered, CHAMBERS, W. A., *et al.* 75
——, with hyperbaric bupivacaine, effect of the Trendelenberg position on, SINCLAIR, C. J., *et al.* 497
——, with hyperbaric bupivacaine: effects of volume of solution, SUNDNES, K. O., *et al.* 69
Spinal block, with lignocaine and fentanyl for Ender nailing in the elderly, OTTENI, J. C., *et al.*, (*EAA*) 238P
Spinal Cord Sensation, BROWN, A. G., *et al.*, (editors), (*R*) 370
Spinal reflexes, comparison of the effects of methohexitone and ketamine on: evidence for transmitter receptors as their sites of action, LODGE, D., *et al.*, (*ARS*) 228P
——, effect of nitrous oxide alone or in combination with fentanyl on, in cats, SUGAI, N., *et al.* 567
Spontaneous respiration, clinical comparison of the Bain and Magill anaesthetic systems during, ALEXANDER, J. P. 1031
Squint surgery, i.m. or i.v. atropine or glycopyrrolate for the prevention of oculocardiac reflex in children undergoing, MIRAKHUR, R. K., *et al.* 1059
Stagnant hypoxia cerebral blood flow, neuropathology of, and the concept of thresholds of ischaemia, GRAHAM, D. I., (*ERS*) 260P
Starvation, preoperative, and blood glucose concentrations in children undergoing inpatient and outpatient anaesthesia, JENSON, B. H., *et al.* 1071
Stereophotogrammetric evaluation, of tracheal volumes in the rabbit, LINDAHL, S., *et al.* 997
Steroid neuromuscular blocking agent, preliminary studies in man with pipecurium bromide (Arduan), a new, NEWTON, D. E. F., *et al.*, (*ARS*) 789P
Stokes–Adams attacks, and extradural morphine, CHRISTENSEN, P., *et al.*, (*C*) 363
Strabismus, a matched comparison of four suxamethonium administration techniques in patients with, COZANITIS, D. A., *et al.* 1283
Strabismus surgery, in children, a study of glycopyrrolate and atropine in the suppression of the oculocardiac reflex during, HUNSLEY, J. E., *et al.* 459
Stress response, of patients undergoing upper abdominal surgery, comparison of halothane and fentanyl supplementation to general anaesthesia on the, PARIKH R. K., *et al.*, 231P
Structural changes in the brain, during critically decreased blood flow or oxygen tension, KALIMO, H., (*ERS*) 261P
Subarachnoid haemorrhage, effects of alterations in blood-gas tensions on the responsiveness of the cerebral circulation 1 week after the induction of, FITCH, W., *et al.*, (*EAA*) 248P
Subarachnoid phenylephrine, systemic reaction to, FREDRIKSEN, A. 1341
——, the use of evoked potentials as a functional monitor in neurological surgery with particular reference to, and posterior fossa tumours, SYMON, L., (*ERS*) 258P
Sufentanil anaesthesia, electroencephalographic effects of, in man, BOVILL, J. G., *et al.* 45
Supraventricular tachycardia, following pancuronium, SHAH, S. C., *et al.*, (*C*) 1237
Suxamethonium, DURANT, N. N., *et al.* 195
——, a comparison with atracurium: its speed of onset, SCOTT, R. P. F., *et al.* 909
——, a matched comparison of four administration techniques in patients with strabismus, COZANITIS, D. A., *et al.* 1283
——, associated hypertonicity and cardiac arrest in unsuspected pseudohypertrophic muscle dystrophy, LINTER, S. P. K., *et al.* 1331
——, continuous infusion for microlaryngeal surgery, CARNIE, J. 11
——, i.v. test PLÖTZ, J., *et al.*, (*C*) 475
——, serum myoglobin and CPK release following, studied using a new radioimmunoassay technique, LAURENCE, A. S., *et al.*, (*ARS*) 1134P

Tachycardia, supraventricular, following pancuronium, SHAH, S. C., *et al.*, (*C*) 1237
Teratogenic, or toxic, is chronic exposure to enflurane at 200 p.p.m? A study in rats, MONK, S. J., *et al.*, (*ARS*) 1139P
Teratogenicity, or toxicity, no evidence of, when rats were chronically exposed to enflurane 200 p.p.m., GREEN, C. J., *et al.* 1097
Termination of pregnancy, anaesthesia for outpatient. *A comparison of two anaesthetic techniques*, HACKETT, G. H., *et al.* 865
Tetanus, intrathecal morphine in, SUN, S., *et al.*, (*C*) 699
The Quantitative Practice of Anaesthesia: Use of Closed Circuit, LOWE, H. J., *et al.*, (*R*) 367
Therapy of Pain, SWERDLOW, M., (editor), (*R*) 370
Thiopentone, and alphaxalone, comparison of the cerebral function monitor and plasma concentrations of, during total i.v. anaesthesia with repeated bolus doses of thiopentone and Althesin, FRANK, M., *et al.* 609
——, and midazolam, haemodynamic effects of, during induction of anaesthesia for coronary artery surgery, AL-KHUDHAIRI, D., *et al.* 831
——, comparison with diisopropyl phenol (ICI 35 868) of the effect on response to somatic pain, BRIGGS, L. P., *et al.* 307
——, comparison with midazolam for use as an induction agent, JENSON, S., *et al.* 605
——, effects on the pulmonary circulation, DOLAR, D., *et al.*, (*EAA*) 250P
——, inadvertent injection of, to the brachial plexus sheath. A case report, TUOHY, S. A., *et al.* 355
Tissue lactic acidosis, hyperglycemia and ischaemic brain injury, REHNCRONA, S., (*ERS*) 255P
Tocolysis, and anaesthesia for Caesarean section, SUPPAN, P., (*C*) 1007
Tourniquet-induced hypertension, KAUFMAN, R. D., *et al.* 333
Toxic, or teratogenic, is chronic exposure to enflurane at 200 p.p.m.? a study in rats, MONK, S. J., *et al.*, (*ARS*) 1139P
Toxicity, or teratogenicity, no evidence of, when rats were chronically exposed to enflurane 200 p.p.m., GREEN, C. J., *et al.* 1097
Tracheal intubation, influence of sore throat after operation, and of intracuff pressure and type of cuff, JENSEN, P. J., *et al.* 453

Tracheal tube cuff volumes, and nitrous oxide in oxygen, BRANDT, L., (*C*) 1238
Tracheal volumes, stereophotogrammetric evaluation of, in the rabbit, LINDAHL, S., *et al.* 997
Train-of-four stimuli, use of atracurium during general surgery monitored by the, HUNTER, J. M., *et al.* 1243
Transcutaneous P_{O_2}, continuous recording in paediatric anaesthesia, GHNASSIA, M. D., *et al.*, (*EAA*) 247P
Transmitter, release of, at the neuromuscular junction, STANDAERT, F. 131
Trendelenberg position, effect on spinal anaesthesia with hyperbaric bupivacaine, SINCLAIR, C. J., *et al.* 497
Trends in Intravenous Anesthesia, ALDRETE, J. A., *et al.*, (editors), (*R*) 372
Trichloroethylene, 100 p.p.m., rat fetal development and maternal exposure to, HEALY, T. E. J., *et al.* 337
Trimeprazine, comparison with lorazepam for oral premedication in paediatric anaesthesia, PETERS, C. G., *et al.* 623
Trimetaphan-induced hypotension, and nitroprusside-induced hypotension, comparison of changes in e.c.f. potassium concentration and pH of the brain between, MORRIS, P. J., *et al.*, (*ERS*) 257P
Trinitroglycerin, and sodium nitroprusside, changes in canine intracranial pressure in response to infusions of, MORRIS, P. J., *et al.* 991
Tubocurarine, and atracurium, *in vitro* comparison between the neuromuscular and ganglion blocking potency ratios of, HEALY, T. E. J., *et al.* 1307
——, and methohexitone, actions at the chick neuromuscular junction, WALI, F. A., (*ARS*) 1134P
——, fazadinium, pancuronium and Org NC 45, binding of, to serum proteins in normal man and in patients with cirrhosis, DUVALDESTIN, P., *et al.* 513
Twitch tension, skeletal muscle, microprocessor-based analysis of, LESLIE, G. C., *et al.*, (*ARS*) 233P

Upper abdominal surgery, effect of extradural analgesia and vagal blockade on the metabolic and endocrine response to, TRAYNOR, C., *et al.* 319
Ureter, effect of intrathecal morphine on the electrophysiological activity of, in rabbit, MAGORA, F., *et al.*, (*EAA*) 238P
Urinary pH, varied, the disposition of plasma pethidine in 10 volunteers under conditions of, JENNINGS, F., *et al.*, (*ARS*) 225P
Urinary retention, during i.m. and extradural morphine analgesia, PETERSEN, T. K., *et al.* 1175

Vagal blockade, and extradural anaesthesia, effect on the metabolic and endocrine response to upper abdominal surgery, TRAYNOR, C., *et al.* 319
Vagal discharge, efferent, and heart rate in response to methohexitone, Althesin, ketamine and etomidate in cats, INOUE, K., *et al.* 1105
Vaporizing gas, air as a. Cognitive functions in elderly patients undergoing anaesthesia, PRIOR, F. N., *et al.* 1207
Vascular mechanisms, specific, of hypotensive agents, PASCH, T., (*ERS*) 253P
Vasoconstrictors, added, effect on spinal anaesthesia with hyperbaric bupivacaine, CHAMBERS, W. A., *et al.* (*ARS*) 230P
Vecuronium (Org NC 45, Norcuron) and pancuronium, repetitive administration in patients undergoing long lasting operations, BUZELLO, W., *et al.* 1151
Venous sequelae, following i.v. anaesthetics and benzodiazepines, KAWAR, P., *et al.*, (*ARS*) 233P
——, following the i.v. administration of certain anaesthetics and sedatives, and frequency of pain on infection, KAWAR, P., *et al.* 935
Ventilation, continuous positive pressure, cardiorespiratory effects of an inspiratory hold and, in goats, PEREZ-CHADA, R. D., *et al.*, (*ARS*) 783P
——, intermittent positive pressure, effects of varying inspiratory flow waveform and time in: pulmonary oedema, BAKER, A. B., *et al.* 539
Ventilators, portable, BOIDIN, M. P., (*C*) 900
Ventilatory depression, plasma fentanyl concentrations and the occurrence of, in volunteers, STOECKEL, H., *et al.* 1087
Ventilatory effects, of extradural diamorphine, COOPER, G. M., *et al.*, (*EAA*) 239P
Ventricular function, on the relationship with end-diastolic cardiac size, under increasing doses of enflurane in intact, chronically instrumented dogs, STEINBEREITHNER, K., *et al.*, (*EAA*) 244P
Verapamil, haemodynamics of, during enflurane anaesthesia, HOLLAND, D. E., *et al.*, (*ARS*) 787P
Volatile anaesthetics, place during induced hypotension in neurosurgical patients, CUNITZ, G., (*ERS*) 254P

Wakefulness, and general anaesthesia, RUSSELL, I. F., (*C*) 573
Weight, and age, influence on the pressure reversal of methohexitone in the rat, HALSEY, M. J., *et al.*, (*ARS*) 786P

Young adult brain, and ageing brain, blood flow and oxidative metabolism of the, HOYER, S., (*ERS*) 258P

Zomepirac, placebo and paracetamol/dextropropoxyphene combination compared in orthopaedic postoperative pain, EVANS, P. J. D., *et al.* 927

CONTENTS

JANUARY

EDITORIAL: The problem of histamine in anaesthesia 1
J. A. Thornton

CLINICAL INVESTIGATION

Comparison of i.m. diazepam and hydroxyzine as premedicants 3
G. P. Herr, J. T. Connor, D. Schehl and F. Dorey

Continuous suxamethonium infusion for microlaryngeal surgery 11
J. Carnie

Remote monitoring by mass spectrometry during anaesthesia. *Evaluation of a suitable inlet system.* 15
G. Gordon, T. Boyd and R. F. Salamonsen

Influence of extradural morphine on the adrenocortical and hyperglycaemic response to surgery 23
P. Christensen, M. R. Brandt, J. Rem and H. Kehlet

Suppression of antidiuretic hormone hypersecretion during surgery by extradural anaesthesia 29
F. Bonnet, A. Harari, M. Thibonnier and P. Viars

Single-dose comparison of buprenorphine 0.3 and 0.6 mg i.v. given after operation: clinical effects and plasma concentrations 37
P. J. Q. Watson, H. J. McQuay, R. E. S. Bullingham, M. C. Allen and R. A. Moore

Electroencephalographic effects of sufentanil anaesthesia in man 45
J. G. Bovill, P. S. Sebel, A. Wauquier and P. Rog

Antagonism of Org NC 45 (Vecuronium) and pancuronium neuromuscular blockade by neostigmine 53
P. J. Gencarelli and R. D. Miller

Effect of hypocarbia and hypercarbia on the antagonism of pancuronium-induced neuromuscular blockade with neostigmine in man 57
K. Wirtavuori, M. Salmenperä and T. Tammisto

Antagonism of pancuronium in renal failure: no recurarization 63
D. R. Bevan, D. Archer, F. Donati, A. Ferguson and B. D. Higgs

Spinal analgesia with hyperbaric bupivacaine: effects of volume of solution 69
K. O. Sundnes, P. Vaagenes, P. Skretting, B. Lind and H. H. Edström

Spinal anaesthesia with hyperbaric bupivacaine: effects of concentration and volume administered 75
W. A. Chambers, D. G. Littlewood, H. H. Edstrom and D. B. Scott

EXPERIMENTAL

Alfentanil: a study of its analgesic activity and interactions with morphine in the mouse 81
J. G. Williams, J. H. Brown and B. J. Pleuvry

Pattern of reduction of ventilatory and occlusion pressure response to carbon dioxide by pentazocine in man 87
G. B. Drummond, J. Fisher, A. Zidulka and J. Milic-Emili

Effects of the inhalation of enflurane on hepatic microsomal enzymatic activities in the rat 97
M. G. F. da Rocha-Reis and C. Hipólito-Reis

Effects of halothane and sodium nitroprusside on renal function and autoregulation 103
A. Ohmura, K. C. Wong, N. L. Pace and R. K. Johansen

CORRESPONDENCE

Malposition of a central venous catheter 109

Pancuronium and nodal rhythm 109

Antagonism of ketamine by 4-aminopyridine and physostigmine 110

Positive end-expiratory pressure and air embolism in the sitting position 110

A Foley catheter introducer for endotracheal tubes 111

FEBRUARY

EDITORIAL: Neuromuscular blockade 113
J. Norman

SYMPOSIUM ON THE NEUROMUSCULAR JUNCTION

Acetylcholine receptor 115
F. Dreyer

Release of transmitter at the neuromuscular junction 131
F. Standaert

Non-relaxant properties of neuromuscular blocking drugs 147
W. C. Bowman

Pharmacokinetics of competitive muscle relaxants 161
R. D. Miller

Pharmacodynamics of non-depolarizing neuromuscular blocking agents 169
C. J. Hull

Antagonism of neuromuscular blockade 183
R. Cronnelly and R. B. Morris

Suxamethonium 195
N. N. Durant and R. L. Katz

Clinical assessment of neuromuscular transmission 209
J. Viby-Mogensen

ABSTRACTS

Proceedings of the Anaesthetic Research Society, London Meeting, November 13, 1981 ..... 225P

Proceedings of the European Academy of Anaesthesiology, Vienna, October 1981 ..... 237P

Erwin Riesch Symposium, Tubingen, September 1981 ..... 253P

MARCH

EDITORIAL: The F.F.A.R.C.S. Examinations 265
A. A. Spence

CLINICAL INVESTIGATION

Anaesthetic emergency service at three hospitals—a decade of change 267
E. Major, T. Bates, A. M. C. Jennings, D. A. Nightingale, T. H. Taylor, P. D. Booker and K. R. L. Evans

Patient administration of i.v. buprenorphine for postoperative pain relief using the "Cardiff" demand analgesia apparatus 279
J. M. Gibbs, H. D. Johnson and F. M. Davis

Controlled comparison of i.m. morphine and buprenorphine for analgesia after abdominal surgery 285
P. J. Cook, I. M. James, K. E. F. Hobbs and D. R. G. Browne

Comparison of four narcotic analgesics for extradural analgesia 291
T. A. Torda and D. A. Pybus

I.v. glyceryl trinitrate: haemodynamic effects and clinical use in cardiac surgery 297
R. Bale, A. Powles and R. Wyatt

Effect of preanaesthetic medication on anaesthesia with ICI 35 868 303
L. P. Briggs, M. Bahar, H. T. B. Beers, R. S. J. Clarke, J. W. Dundee, P. J. Wright, D. M. McAuley and M. P. O'Neill

Comparison of the effect of diisopropyl phenol (ICI 35 868) and thiopentone on response to somatic pain 307
L. P. Briggs, J. W. Dundee, M. Bahar and R. S. J. Clarke

Effects of posture on the spread of spinal anaesthesia with isobaric 0.75% or 0.5% bupivacaine 313
M. Tuominen, E. Kalso and P. H. Rosenberg

Effect of extradural analgesia and vagal blockade on the metabolic and endocrine response to upper abdominal surgery 319
C. Traynor, J. L. Paterson, I. D. Ward, M. Morgan and G. M. Hall

Postoperative glucose tolerance during extradural analgesia 325
F. P. Buckley, H. Kehlet, N. S. Brown and D. B. Scott

Tourniquet-induced hypertension 333
R. D. Kaufman and L. F. Walts

EXPERIMENTAL

Rat fetal development and maternal exposure to trichloroethylene 100 p.p.m. 337
T. E. J. Healy, T. R. Poole and A. Hopper

Anticonvulsant activity of Althesin on experimental epilepsy 343
P. L. De Riu, G. Susini and P. Rusu

CASE REPORTS

Halothane hepatitis in a young child 349
R. B. Lewis and M. Blair

Inadvertent injection of thiopentone to the brachial plexus sheath. *A case report* 355
S. A. Tuohy and M. A. MacEvilly

APPARATUS

The performance of a scavenging valve 359
P. A. Foster

CORRESPONDENCE

Extradural morphine and Stokes – Adams attacks 363
Posterior fossa surgery 363
Morbid obesity 364
Laryngeal microsurgery 364
Carbon dioxide homeostasis and circle systems 365

BOOK REVIEWS

The Quantitative Practice of Anaesthesia: Use of Closed Circuit 367
Advances in Neurology, Volume 28, Brain Edema: Pathology, Diagnosis and Therapy 367
Electrical Safety in Hospitals 367
How to Understand Acid–Base. A Quantitative Acid–Base Primer for Biology and Medicine 368
Membrane Physiology and Cell Excitation 368
Neurosurgical Anaesthesia and Intensive Care 368
Humidification of Anaesthetic Gases 369
Anaesthetic Nursing 369
The Therapy of Pain 370
Spinal Cord Sensation 370
Chemical Diagnosis of Disease 370
Anaesthesia for Cardiac Surgery and Allied Procedures 371
Management of Head Injuries 371
Non-Invasive Cardiovascular Monitoring by Electrical Impedance Technique 371
Trends in Intravenous Anesthesia 372
Other books received 372

APRIL

EDITORIAL: Changes in editorial arrangements 373

EXPERIMENTAL

Some actions of Org NC 45 and of edrophonium in the anaesthetized cat and in man 375
W. L. M. Baird, W. C. Bowman and W. J. Kerr

Hydrogen bonding in mechanisms of anaesthesia tested with chloroform and deuterated chloroform 387
S. Wood, B. Wardley-Smith, M. J. Halsey and C. J. Green

Plasma concentration and e.e.g. after various regimens of etomidate 393
A. Doenicke, B. Löffler, J. Kugler, H. Suttman and B. Grote

CLINICAL INVESTIGATION

Influence of medication, pain and progress in labour on plasma β-endorphin-like immunoreactivity 401
T. A. Thomas, J. E. Fletcher and R. G. Hill

A controlled trial of extradural fentanyl in labour 409
D. M. Justins, D. Francis, P. G. Houlton and F. Reynolds

Extradural pethidine with and without adrenaline during labour: wide variation in effect 415
A. Skjöldebrand, M. Garle, L. L. Gustafsson, H. Johansson, N.-O. Lunell and A. Rane

Pain relief after abdominal surgery — a comparison of i.m. morphine, sublingual buprenorphine and self-administered i.v. pethidine 421
R. Ellis, D. Haines, R. Shah, B. R. Cotton and G. Smith

Effect of physiostigmine on morphine-induced post-operative pain and somnolence 429
M. Weinstock, J. T. Davidson, A. J. Rosin and H. Schnieden

Comparison of the effects of Org NC 45 and pancuronium bromide on heart rate and arterial pressure in anaesthetized man 435
P. K. Barnes, G. Brindle Smith, W. D. White and R. Tennant

Impaired neostigmine antagonism of pancuronium during enflurane anaesthesia in man 441
S. Delisle and D. R. Bevan

Recovery from day-case anaesthesia. Comparison between methohexitone, Althesin and etomidate 447
J. Craig, G. M. Cooper and J. W. Sear

Sore throat after operation: influence of tracheal intubation, intracuff pressure and type of cuff 453
P. J. Jensen, P. Hommelgaard, P. Søndergaard and S. Eriksen

A study of glycopyrrolate and atropine in the suppression of the oculocardiac reflex during strabismus surgery in children 459
J. E. Hunsley, G. H. Bush and C. J. Jones

Changes in colliod osmotic pressure and plasma albumin concentration associated with extracorporeal circulation 465
R. Sanchez de Léon, J. L. Paterson and M. K. Sykes

CORRESPONDENCE

Preoperative buprenorphine does not prevent myoclonia seen after etomidate 475
I.v. suxamethonium test 475
Adverse reaction to extradural buprenorphine 476
Educated cheek 476

MAY

EDITORIAL: Anaesthetic morbidity and mortality 477
D. B. Scott

CLINICAL INVESTIGATION

Adverse effects of extradural and intrathecal opiates: report of a nationwide survey in Sweden 479
L. L. Gustafsson, B. Schildt and K. Jacobsen

Maternal and fetal concentration of morphine after intrathecal administration during labour 487
J. P. Bonnardot, M. Maillet, J. C. Colau, F. Millot and P. Deligne

Blood loss in total hip replacement: extradural *v.* phenoperidine analgesia 491
S. P. Chin, M. N. Abou-Madi, B. Eurin, J. Witvoët and J. Montagne

Effect of the Trendelenberg position on spinal anaesthesia with hyperbaric bupivacaine 497
C. J. Sinclair, D. B. Scott and H. H. Edström

Analgesic responses to i.v. lignocaine 501
R. A. Boas, B. G. Covino and A. Shahnarian

Effect of different kinds of premedication on the induction properties of midazolam 507
J. Kanto, S. Sjövall and A. Vuori

Binding of tubocurarine, fazadinium, pancuronium and Org NC 45 to serum proteins in normal man and in patients with cirrhosis 513
P. Duvaldestin and D. Henzel

Effect of phentolamine on the metabolic response to gynaecological surgery 517
E. S. Walsh, J. L. Paterson, K. Mashiter and G. M. Hall

One-lung ventilation of children during surgical excision of hydatid cysts of the lung 523
A. Baraka, M. Slim, A. Dajani and S. Lakkis

Hazards of neostigmine in patients with neuromuscular disorders. *Reports of two cases* 529
W. Buzello, N. Krieg and A. Schlickewei

External jugular vein access to the central venous system. *A trial of two types of catheter* 535
G. S. Riddell, I. P. Latto and W. S. Ng

EXPERIMENTAL

Effects of varying inspiratory flow waveform and time in intermittent positive pressure ventilation: pulmonary oedema 539
A. B. Baker, J. B. Thompson, J. Turner and P. Hansen

Effects of varying inspiratory flow waveform and time in intermittent positive pressure ventilation: emphysema 547
A. B. Baker, R. Restall and B. W. Clark

Halothane adsorption complicating the use of soda-lime to humidify anaesthetic gases 555
W. K. Grodin and R. A. Epstein

Mechanisms of halothane adsorption by dry soda-lime 561
W. K. Grodin, M. A. F. Epstein and R. A. Epstein

Effect of nitrous oxide alone or its combination with fentanyl on spinal reflexes in cats 567
N. Sugai, H. Maruyama and K. Goto

CORRESPONDENCE

Methaemoglobin formation after nitroglycerin infusion 571
Algebra and the circle system 571
Leak tests 572
Wakefulness and general anaesthesia 573
Magill intubating forceps 573
Morphine and the extradural space 573
Resistance to pancuronium and haemoconcentration 573
Posterior fossa surgery 574

BOOK REVIEWS

JUNE

EDITORIAL: Monitoring respiration in the postoperative period 577
C. D. Hanning

CLINICAL INVESTIGATION

The oscillotonometer in theory and practice 581
P. Hutton and C. Prys-Roberts

Serum methionine and hepatic enzyme activity in anaesthetists exposed to nitrous oxide 593
J. F. Nunn, N. Sharer, D. Royston, R. W. E. Watts, P. Purkiss and H. G. Worth

Control of breathing after fentanyl and Innovar anaesthesia 599
K. G. Smedstad and J. R. A. Rigg

Use of midazolam as an induction agent: comparison with thiopentone 605
S. Jenson, A. Schou-Olesen and M. S. Hüttel

Comparison of the cerebral function monitor and plasma concentrations of thiopentone and alphaxalone during total i.v. anaesthesia with repeated bolus doses of thiopentone and Althesin 609
M. Frank, T. M. Savege, M. Leigh, J. Greenwood and J. M. P. Holly

Effect of a new analeptic drug, almitrine, on fentanyl-induced respiratory depression and analgesia in man 617
J. H. Gaudy, C. Dauthier and B. Fourgeaux

Comparison study of lorazepam and trimeprazine for oral premedication in paediatric anaesthesia 623
C. G. Peters and J. F. Brunton

Recovery from day-case anaesthesia: comparison of a further four techniques including use of the new induction agent Diprivan 629
D. F. Jones

Change in fetal tcP_{O_2} values occurring during labour in association with lumbar extradural analgesia 635
R. J. Willcourt, J. C. Paust and J. T. Queenan

Placental transfer of Org NC 45 in women undergoing Caesarian section 643
M. Demetriou, J.-P. Depoix, B. Diakite, M. Fromentin and P. Duvaldestin

Dose–response relation for stracurium, Org NC 45 and pancuronium 647
L. Gramstad and P. Lilleaasen

Age-dependent dose–response relationship of Org NC 45 in anaesthetized patients 653
A. d'Hollander, F. Massaux, M. Nevelsteen and S. Agoston

EXPERIMENTAL

Electroencephalographic and behavioural effects of enflurane and halothane anaesthesia in the cat 659
G. M. Bassell, B. F. Cullen, M. D. Fairchild and J. A. Kusske

The response of canine intracranial pressure to systemic hypotension induced with nitroglycerine 665
D. E. R. Burt, A. J. W. Verniquet and J. Homi

Cardiorespiratory responses to an i.v. infusion of dobutamine in the intact anaesthetized dog 673
C. H. Orchard, M. K. Chakrabarti and M. K. Sykes

APPARATUS

A sandwich electrode for multi-gas analysis: a prototype 681
C. E. W. Hahn, E. A. H. Hall, P. M. Maynard and W. J. Albery

A versatile closed circuit 689
P. Beatty, M. F. S. Wheeler, B. Kay, W. Greer, A. T. Cohen and J. Parkhouse

CORRESPONDENCE

Antagonism of neuromuscular block 699
Pharmacokinetics of Org NC 45 699
Intrathecal morphine in tetanus 700

Intrathecal morphine in tetanus 700

JULY

EDITORIAL: The anaesthetist and respiratory dysfunction 701
J. Gareth Jones

SYMPOSIUM ON ANAESTHESIA AND RESPIRATORY DYSFUNCTION

The physiology of leaky lungs 705
J. G. Jones, B. D. Minty and D. Royston

Adult respiratory distress syndrome 723
A. M. Fein, S. K. Goldberg, M. L. Lippmann, R. Fischer and L. Morgan

Oxygen toxicity of the lung: an update 737
S. M. Deneke and B. L. Fanburg

Assessment of pulmonary airway calibre 751
J. R. Lehane

Assessment of the effects of drugs on respiration 763
C. Jordan

ABSTRACTS

Proceedings of the Anaesthetic Research Society, Oxford Meeting, March 26, 1982 ..... 783P

CORRESPONDENCE

Humidity and compressors 791
Air embolism in the sitting position 791
Sodium nitroprusside and cyanide release 791
Antagonism of neuromuscular block 793

A. A. Spence

Rotterdam Meeting on the History of Anaesthesia 797
A. R. Hunter

Intrathecal bupivacaine 799
W. Alastair Chambers

CLINICAL INVESTIGATION

Epidemiology in anaesthesia I: Anaesthetic practice over 20 years 803
J. N. Lunn, S. C. Farrow, F. G. R. Fowkes, I. B. Robertson and P. Samuel

Epidemiology in anaesthesia. II: Factors affecting mortality in hospital 811
S. C. Farrow, F. G. R. Fawkes, J. N. Lunn, I. B. Robertson and P. Samuel

Epidemiology in anaesthesia. III: Mortality risk in patients with coexisting physical disease 819
F. G. R. Fowkes, J. N. Lunn, S. C. Farrow, I. B. Robertson and P. Samuel

Onset time and duration of action for atracurium, Org NC 45 and pancuronium 827
L. Gramstad, P. Lilleaasen and B. Minsaas

Haemodynamic effects of midazolam and thiopentone during induction of anaesthesia for coronary artery surgery 831
D. Al-Khudhairi, J. G. Whitwam, M. K. Chakrabarti, H. Askitopoulou, E. M. Grundy and S. Powrie

Effect of extradural analgesia using bupivacaine and 2-chloroprocaine on intervillous blood flow during normal labour 837
A. I. Hollmén, R. Jouppila, P. Joupilla, A. Koivula and H. Vierola

Plasma pharmacokinetics of morphine after i.m., extradural and intrathecal administration 843
M. Chauvin, K. Samii, J. M. Schermann, P. Sandouk, R. Bourbon and P. Viars

Kinetics of high-dose i.v. diazepam 849
H. R. Ochs, D. J. Greenblatt, P. M. Lauven, H. Stoeckel and K. Rommelsheim

Plasma concentrations of lignocaine and metabolites during fibreoptic bronchoscopy 853
D. A. Jones, A. McBurney, P. J. Stanley, C. Tovey and J. W. Ward

Immunological aspects of adverse reactions to Althesin 859
S. G. Radford, J. A. Lockyer and P. J. Simpson

Anaesthesia for outpatient termination of pregnancy. *A comparison of two anaesthetic techniques* 865
G. H. Hackett, M. N. E. Harris, O. M. Plantevin, H. M. Pringle, D. B. Garrioch and A. J. Avery

EXPERIMENTAL

Comparative pharmocokinetics of fentanyl and alfentanil 871
S. Bower and C. J. Hull

Ketamine and e.e.g. seizure waves: interaction with anti-epileptic drugs 879
Y. Kayama

Experimental porcine malignant hyperthermia. The activity of certain transporting enzymes and myofibrillar calcium-binding protein content in the muscle fibre 885
I. Niebrój-Dobasz and E. Mayzner-Zawadzka

CASE REPORTS

Allergy to local anaesthesia 893
M. McD. Fisher and J. C. Pennington

Controlled hypotension to minimize blood loss of anaemic Jehovah's Witness patient undergoing total hip and shoulder replacement 895

P. S. Sebel and J. G. Bovil

CLINICAL INVESTIGATION
Repetitive administration of pancuronium and vecuronium (Org NC 45, Norcuron) in patients undergoing long lasting operations 1151
W. Buzello and G. Nöldge

Clinical studies on Org NC 45: comparison with pancuronium 1159
W. J. Kerr and W. L. M. Baird

Extradural and parenteral morphine: kinetics and effects in postoperative pain: a controlled clinical study 1167
L. L. Gustafsson, S. Friberg-Nielsen, M. Garle, A. Mohall, A. Rane, B. Schildt and T. Symreng

Urinary retention during i.m. and extradural morphine analgesia 1175
T. K. Peterson, S. E. Husted, L. Rybro, B. A. Schurizek and M. Wernberg

Effects of posture and some c.s.f. characteristics on spinal anaesthesia with isobaric 0.5% bupivacaine. 1179
E. Kalso, M. Tuominen and P. H. Rosenberg

Cardiovascular effects of alfentanil anaesthesia 1185
P. S. Sebel, J. G. Bovill and A. van der Haven

I.v. labetalol in the treatment of hypertension following coronary artery surgery 1191
D. R. Morel, A. Forster and P. M. Suter

Effect of sodium nitroprusside-induced hypotension on pulmonary deadspace 1197
H. J. Khanbatta, J. G. Stone and R. S. Matteo

Reduction of heat loss in neurosurgical patients using metallized plastic sheeting 1201
J. L. A. Telfer Brunton, G. M. M. Thoms and I. Blair

Air as a vaporizing gas. Cognitive functions in elderly patients undergoing anaesthesia 1207
F. N. Prior and P. Chander

Morbidity in minor gynaecological surgery: a comparison of halothane, enflurane and isoflurane 1213
J. A. Tracey, A. J. C. Holland and L. Unger

EXPERIMENTAL
Myoneural actions of Org NC 45 1217
T. A. Torda and N. Kiloh

Effects of inhalation anaesthetic agents on the electrical and mechanical activity of the rat duodenum 1223
J. W. Wright, T. E. J. Healy, T. W. Balfour and J. D. Hardcastle

Influence of oral atropine or hyoscine on the absorbtion of oral diazepam 1231
S. M. Gregoretti and D. R. A. Uges

Parenteral ranitidine: onset and duration of action 1235
H. G. Dammann, P. Müller and B. Simon

CORRESPONDENCE
Clodanolene sodium and malignant hyperpyrexia 1237
Supraventricular tachycardia following pancuronium 1237
Accidental high-dose extradural morphine 1237
Nitrous oxide in oxygen and tracheal tube cuff volumes 1238

BRITISH JOURNAL OF ANAESTHESIA

CONTENTS

PAGE

EDITORIAL ACKNOWLEDGEMENTS 1241

CLINICAL INVESTIGATION

Use of atracurium during general surgery monitored by the train-of-four stimuli 1243
J. M. Hunter, R. S. Jones and J. E. Utting

Use of atracurium in patients with no renal function .. 1251
J. M. Hunter, R. S. Jones and J. E. Utting

Dose–effect relationships of extradural morphine .. 1259
D. A. Pybus and T. A. Torda

Postoperative analgesia after circumcision in children . 1263
L. V. H. Martin

Fentanyl pharmacokinetics in anaesthetized patients with cirrhosis 1267
J. P. Haberer, P. Schoeffler, E. Couderc and P. Duvaldestin

Acute i.v. methadone kinetics in man: relationship to chronic studies 1271
R. E. S. Bullingham, H. J. McQuay, E. J. B. Porter, D. Thomas, M. C. Allen and R. A. Moore

Efficacy of the laryngeal reflex during oxygen–nitrous oxide sedation (relative analgesia) 1277
G. J. Roberts and B. K. Wignall

A matched comparison of four suxamethonium administration techniques in patients with strabismus. 1283
D. A. Cozanitis, U. Karhunen, P. Brander and J. D. Merrett

EXPERIMENTAL

The origin of inverted waveforms in the reflection plethysmogram 1289
J. A. Nijboer and J. C. Dorlas

Pre- and postjunctional blocking effects of aminoglycoside, polymixin, tetracycline and lincosamide antibiotics 1295
Y. N. Singh, I. G. Marshall and A. L. Harvey

PAGE

In vitro comparison between the neuromuscular and ganglion blocking potency ratios of atracurium and tubocurarine 1307
T. E. J. Healy and J. P. Palmer

Metabolism of monoamines in malignant hyperthermia-susceptible pigs 1313
M. E. Bardsley, A. M. Wheatley, C. J. Fowler, J. M. McCrodden, J. V. McLoughlin and K. F. Tipton

Some capabilities and limitations of multiple regression analysis: application to canine coronary blood flow . 1319
A. M. S. Black and P. Foëx

CASE REPORTS

Suxamethonium-associated hypertonicity and cardiac arrest in unsuspected pseudohypertrophic muscular dystrophy 1331
S. P. K. Linter, P. R. Thomas, P. S. Withington and M. G. Hall

Use of metyrosine in the anaesthetic management of patients with catecholamine-secreting tumours. *A case report* 1333
L. Triner, L. Baer, R. Gallagher and S. Weitzman

Systemic reaction to subarachnoid injection of phenylephrine 1337
A. Frederiksen

Anaesthetic management of acute laryngeal trauma .. 1339
L. M. Flood and B. Astley

BOOK REVIEWS

Problems in Anaesthesia – A Case Study Approach .. 1345
Anaesthesia in Otolaryngology and Ophthamology .. 1345
Recent Advances in Anaesthesia and Analgesia 1346
Current Topics in Anaesthesia, 6: Anaesthesia in Patients with Ischaemic Heart Disease 1346
Code Pink: A Practical System for Neonatal Perinatal Resuscitation 1346
Other books received 1347
Index to volume 54 1349
